Compromise Proposal Okayed By Board, Act Spikes Parents' Guns

West Skyline Pupils Stay At Lincoln, Knolls Area Split, Terrace Will Go To Columbus

Spluttering fuses to potentially heavy verbal and legal barrages in the intercivic war over reassignment of pupils from Lincoln Elementary School to a new academic abode were dampened sufficiently Monday night so they may not become a flaring threat again for several years.

The two segments of Jefferson Elementary School District life apparently found a peaceful meeting ground based on a compromise pupil shift proposal. They were the Palisades and Heights parents residing west of Skyline freeway and the Westlake Knolls parents in the area north of the projected new lateral freeay north of Columbus School.

The compromise peace proposal, which brought about at least a truce that it is believed may last for a number of years, was laid before the Jefferson Elementary School District board of trustees by District Superintendent Richard L. Foster. When the board unanimously okayed it, it obviously pulled the firing pins of the weapons of protest which both groups of parents were priming for future firing at the school reassignment program.

The compromise recommended by Superintendent Foster leaves most of the pupils' school abodes at status quo with only minor shifts in teaching homes of some 174 pupils in the southerly Westlake Knolls and the Westlake Terrace areas.

Pupils residing in the Palisades and Heights areas west of Skyline will continue attending Lincoln School with the teaching and administrative staff remaining the same as last year.

Pupils residing in the Westlake Knolls area, from and including both sides of Ridgefield and San Juan avenues, will also continue at Lincoln School.

Pupils residing in the Westlake Terrace area and in Westlake Knolls south of an east-west line between Ridgefield and San Juan avenues and Woodside and Pacifica avenues will be the first to activate or "break-in" the district's newest and most modern academic plant—the new Christopher Columbus School on the heights above Higate drive and St. Francis boulevard, just below the extension of the Skyline Freeway.

Acceptance of the compromise recommendation was voted by the board of trustees on motion of Dr. Donald R. Calvert after the board had listened to greatly modified statements by representatives of both groups of beleaguered parents. The statements, for the most part supporting the compromise plan, had had their firepower spiked by Superintendent Foster's plan.

In spite of the school reassignment peace, the location of the projected lateral freeway to connect Junipero Serra Freeway and Skyline Freeway will undoubtedly come under future salvos of protests, it was indi-

SF Man Faces Murder Attempt Charge On Wife

A 32-year-old San Francisco man has been charged by local police of assault with intent to commit murder. The incident took place in Daly City Monday night when Willie Savage, of 142 Byxbee st., alledgedly attempted to shoot his wife, Eugene, 40.

Savage is set to appear today at Municipal Court Northern Judicial District, South San Francisco, for arraignment and plea. Bail has been set at $5,250.

According to police, Monday night's incident occurred something like this: Mrs. Savage was visiting her sister and brother-in-law, Inez and Corry Patton at their home at 317 San Diego avenue. Savage came into the house and pulled out a .38 revolver, pointed it at his wife, and pulled the trigger. The gun did not go off. At this point, Patton, and Edward Sheffield, 28, of San Francisco, another guest, scuffled with Savage over the gun, which went off, the bullet lodged in the ceiling. They were not able to wrestle the gun from Savage.

Savage fled the scene. Receiving minor injuries were Patton and his daughter, Carolyn, 21, who had rushed into the room from another room at the start of the scuffle. They were later treated at Junipero Serra Hospital and released.

Police arrested Savage at his home a few hours after the incident.

INNOCENT looking enough, but the three objects above can be turned into a dangerous weapon by youngsters. This rather crude object is a "clothespin" gun. A clothespin is a helpful implement about the house for mother, but a youngster can take it, a match and some adhesive tape, and with a little simple work, turn out an ingenuous and finished "product." The three items above are a simple kitchen match, the object in the middle is part of a clothespin used as a "trigger," and the "clothespin" gun itself. The weapon is able to fire and ignite the match. The spring of the clothespin will "discharge" the match for a distance of 15 feet or so.

CITY LOSES FIRST ROUND IN BATTLE OVER REZONING

This week City Attorney Paul Hupf was preparing to go ahead with a court-suit to prevent the Neville Ford Motors on Mission street, from using three lots on Mateo avenue, for commercial purposes.

This followed action last week in which Superior Judge Harold Underwood presiding in Redwood City denied the city's plea for a temporary injunction and restraining order sought against Neville Ford and Fred Pasero, owner of the property.

Pasero claims that the parcels of land in question have been used for commercial purposes for the past 40 years whereas Daly City contends this is not the case and pointed up complaints received from residential property owners in the vicinity.

Pasero sought, through his attorney, John Putkey to obtain a rezoning of the lots from R-1 (single residence) to commercial use. However the Daly City Planning Comission turned down this appeal last spring when a number of residence owners in the area protested.

City Attorney Hupf said he would seek as early a date as possible for the permanent injunction action to be heard but that it would probably be at least two months before it could go on the crowded court calendar. In addition to Putkey, representing Pasero, Neville Ford Motors were represented by Conrad Wright.

Trustees Grant City Water Main Easement

Upon recommendation of District Superintendent Richard L. Foster, the Jefferson Elementary School District board of trustees voted approval last Monday night of a grant of easement for a waterline to Daly City.

The easement is along the western end of the Fernando Rivera School site. Installation of an eight-inch water main through this easement will facilitate water circulation in Westlake subdivision units No. 1A and No. 1B, City Engineer William Chapman set forth in the request. In addition a fire alarm conduit will be run through the same easement.

Youngsters Using 'Clothespin' Guns Play With Danger

A number of youngsters within the last few days have been apprehended carrying self-made 'clothespin" guns.

Fire Batallion Chief Frank Specht states that these youngsters range in age from nine to 13. He called the guns "dangerous things."

Specht referred to these "guns" as not innocent play toys, but as potential dangerous weapons, regardless of their small size, and seemingly harmless use. He urged parents who see their youngsters with these guns to take them away from the child, and destroy the device, thus preventing a fire or possible harm to an individual.

Purpose of these guns, according to Specht, is to "shoot" pins and matches.

Youngsters make these devices by taking an ordinary clothespin, and some adhesive tape for wrapping. By pulling back the spring on the clothespin, and with a match stuck in the clamped end, the spring once released will "shoot" the match or object some 15 or 20 feet. When a match strikes an object it is usually ignited.

In this case, Specht said that if one of these devices was "shot off" in a home, and the lighted match fell into some rags, on a bedspread, or by some curtains, considerable damage might arise.

Specht said that hereafter children caught playing with these "self-made guns" will be charged by police or fire officials with malicious mischief.

GOING THROUGH a practice drill are three of the Daly City Fire Department's newest men. They are (l. to r.) Maurice Sciaroni; Robert Streeter; and Frank Manartorano, all of Daly City. The trio are undergoing six weeks of intensive fire-fighting training before receiving their uniform and helmet, and a regularly-assigned shift. Until that time, they do not go out on any fire calls. Training includes such things as proper laying of hose, using a ladder, how to get on and off a fire truck — quickly and safely — plus many other matters a fireman must know. Staff Photo

Chief Operator L. F. Giuffra Up For Award

Chief Operator Lawrence F. Giuffra of the North San Mateo County Sanitation District's sewage treatment plant is one of several operators being considered for the Wilford G. Curry Award.

The Curry Award, which is sponsored by the San Francisco Bay Section of the California Water Pollution Control Assn., is intended to recognize and reward the "intelligent, effective and superior performance by an operator of the sewage treatment plant that he is responsible for."

Evaluation of a high level performance is made on the basis of criteria set up by the selection committee; which include a visit to the plant, inspection of the physical structure including the equipment, laboratory and operating data.

The selection committee is planning to interview Giuffra for the award as a preliminary to a visit to the plant.

Giuffra has been requested to meet with the committee on September 7 in Berkeley at the State Health Department Building for the interview.

Shopping Center Maps Studied By Pacifica Planners

Pacifica Planning Commission gave its final recommendation Monday night for approval of plans for Seacrest Square, a modern shopping center, which is to be built by Al Witt & Co. of Pacifica. The shopping center will be located on the east side of Highway 1 between Manor drive and Avalon drive.

Besides numerous stores, 105 parking spaces will be provided for the center.

The commission also looked over preliminary plans on the Eureka Square Shopping Center, which is being built by Andrew Oddstad, and will be located on the east side of Highway 1 in Sharp Park. Approval of the plans now permits the devolper to begin grading.

The variance permit requested by Sam Mazza of San Francisco to use the castle located on Mirador Terrace as a tourist attraction, was held over to October 16 for further study.

Approved rezoning of 2.65 acres of Catherine Koche's property, located on the southeast corner of Reina del Mar and Coast Highway from H-1 to C-1.

Approved rezoning lots owned by Fred Girdler on Hilton Way and Montecito Way from R-1 to R-3.

3 MEN ADDED TO FIRE CREW; TOTAL NOW 39

Three men were added recently to the crew of the Daly City Fire Department.

The men are Robert Streeter, Frank Manartorano, and Maurice Sciaroni. They bring the department's working force to 39 full-time men, including chief officers and captains. There are an additional 35 who serve as call men.

The three men competed for the jobs through Civil Service exams. The City Council approved their hiring recently, and they began their six weeks of intensive training on August 15.

According to Fire Batallion Chief Melvin Hanson, during this six weeks the men will be on duty for only eight hours per day. After their training is completed, and they receive their uniforms and helmets, they will be assigned the usual 24-hour shifts.

The six weeks of training includes such things as how to protect themselves, while protecting others; how to climb a ladder, laying of the hose properly, how to get on and off a fire truck — both quickly and safely — administering the resuscitator; checking equipment, etc.

During the sixth week, the trio will go to Treasure Island where they will go through actual fire-fighting experiences, similiar to those they might possibly have to face as fire-

(Continued on Page 2)

Water Is Released From Sprinkler Head; Locker Room Sprayed

Thousands of gallons of water drenched lockers and the tile floor of the locker room at Westlake Bowl Thursday night, when a person or persons deliberately released one of the sprinkler heads in the ceiling.

The fire department received the call at 11:07 p.m., only minutes after the accident occurred. Firemen were unable to determine just how much water had been released, determining an approximate amount based on the knowledge that one sprinkler head released 100 gallons of water per minute, and it was some minutes before the sprinkler head was turned off.

Fire officials said there had been some water damage done to clothes in the various lockers and that some of the asphalt tile flooring may curl as a result.

District Told To Extend Sewage Outfall Line

The Regional Water Pollution Control Board has issued a cease and desist order against the North San Mateo County Sanitation District, asking them to correct a condition of grease deposits which have accumulated along North County beaches as the result of the district's outfall line not being extended enough into the ocean.

The board asks that the line which carries sewage out into the ocean for deposit be extended, so sewage will not "back up" into the public beaches.

The district is at present having a study as to how the line must be extended.

C. L. White, the district's engineer, and Chief Operator L. F. Guiffra attended the board meeting in Oakland on August 17, and informed the directors of the action taken by the board.

District directors accepted the revised specifications, as presented by Engineer T. V. Tronoff, for sewage facilities to be installed by Westborough (formerly Callan Park) County Water District.

Briefly, they are the following:

1. Facilities to be inspected by the sanitation district.
2. Insurance certificates should run jointly between the sanitation district and the water district.
3. There should be faithful performance or surety bonds jointly between the two dis-

(Continued on Page 2)

HOUSEWIFE TAKES LIFE BY JUMPING OUT OF WINDOW

A Daly City housewife committed suicide late Thursday night when she jumped 22 feet from her bedroom window to the ground below.

Police report that shortly before midnight Thursday, Mrs. Katherine J. Donely, 50, 1258 Brunswick street, attempted to take her life by jumping to the ground in the backyard. Her husband, Charles, 52, was in the house at the time, police said. He reported the incident to the police.

The fire Department responded to the scene and administered a resuscitator and inhaltor to improve her breathing. She was then transported to a nearby hospital where she was pronounced dead on arrival.

A county coroner's autopsy report showed Mrs. Donely died from fractured ribs, and ruptured liver causing internal hemmorage, resulting in death.

1,000 FROSH EXPECTED FOR ORIENTATION

Approximately 1,000 freshmen from eight different elementary schools in the area, and new to the Jefferson Union High School District, will meet on Tuesday, September 5 for orientation. Orientation will begin at 8:30 a.m., and conclude at approximately 12 noon.

Those students who will be attending Jefferson High this fall are to meet in the auditorium promptly at 8:30 o'clock.

Those students who will be attending Westmoor High this fall are to meet in the Westmoor Boys' Gym.

Particulars about where those students will meet who will be attending Terra Nova High School are still being worked out, and will be announced in this newspaper shortly.

Bus schedules will be published in this newspaper next week.

The orientation program consists of three phases, which are:

1. A general assembly period for an explanation of the high school, its rules and operation.
2. A small group session of approximately 25 students to each teacher for a more intimate discussion of special areas such as school schedules, bus transportation, distribution of lockers and program cards for the fall semester.
3. A tour of the facilities and an opportunity to visit classrooms and work-book lockers. The final phase consists of pre-registration and testing of all students not previously registered or tested in the district.

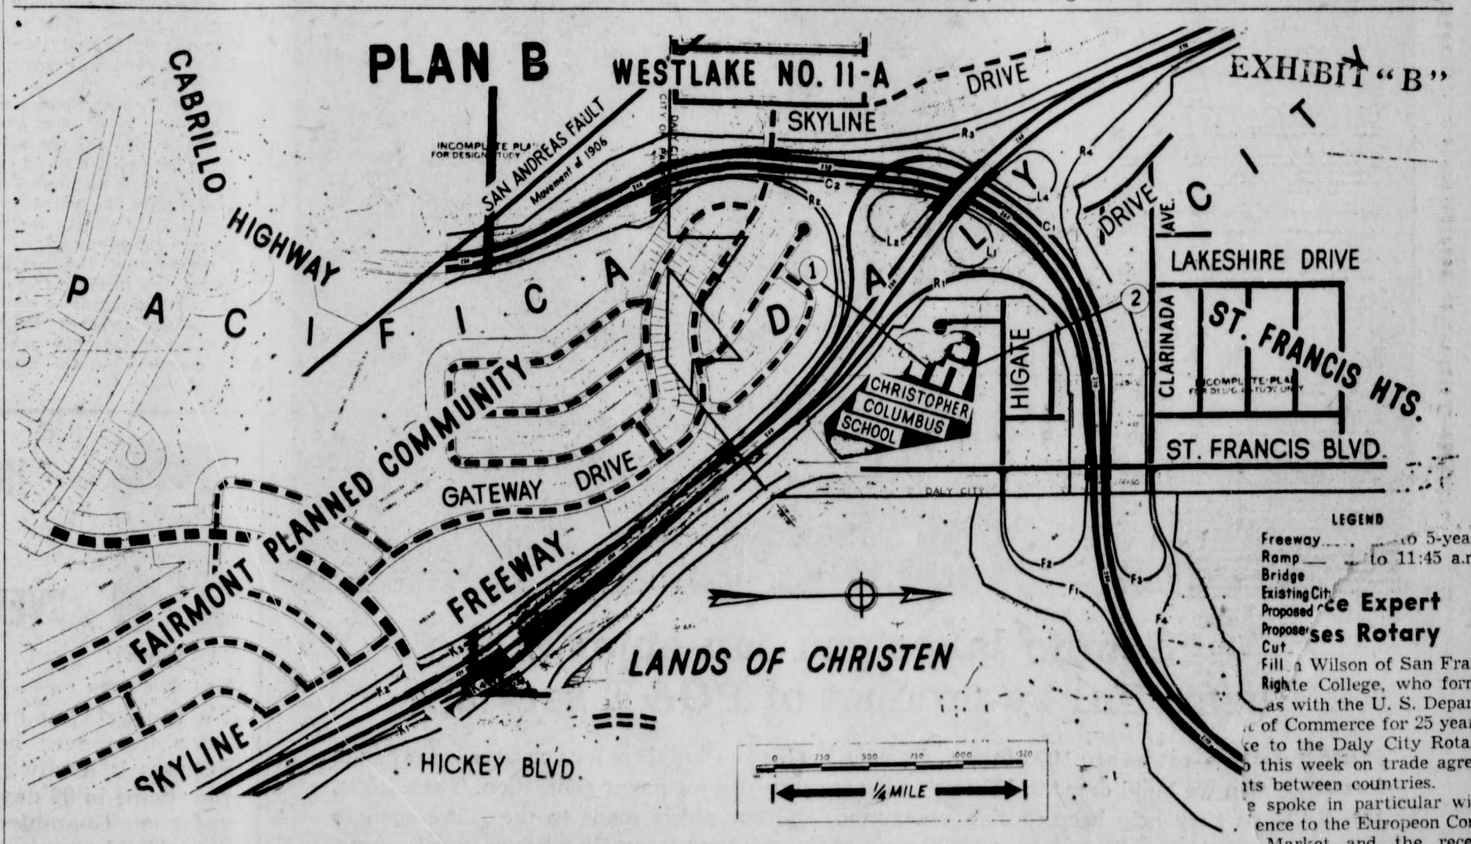
Wife Finds Husband Dead In Basement

A 40-year-old Daly City man was found dead in the basement of his home late Saturday afternoon by his wife. He had a 50-pound board lying across his chest.

Mrs. James Purcell, 236 Verano drive, told police she returned from shopping shortly after 5 p.m., and discovered her husband's body in the basement. Her husband had apparently been working in the basement, police said, perhaps doing some type of carpentry when the board, which was 4in. by 4 in. square and eight feet in length, fell on him, hitting him along the side of his head and knocking him to the floor.

The coroner's office said Purcell died of a brain hemhorrage.



LATERAL FREEWAY MAP of State Highway Department engineers showing overpasses and underpasses and extension of Skyline Freeway southward. The lateral freeway designated Route 56, Sign Route No. 1, by the State engineers, is the one that was under fire at hearing held by the State Highway Commission last May. It was again the object of much discussion in the battle of Westlake Knolls and West of Skyline parents over the proposed switch in pupils to the new Christopher Columbus School of the Jefferson Elementary School District. The Route 56 Lateral Freeway from Junipero Serra is shown swinging north of Columbus School to an interchange with the extension of Skyline Freeway and thence joining the Coast Highway running south through Pacifica to Monterey Bay. Parents residing in the Westlake Knolls area north of the projected new lateral freeway objected to their children being transferred to Columbus [illegible] safety fac[illegible] tion. Stat[illegible] declared [illegible] way wou[illegible] the con[illegible] least se[illegible]

[illegible] Expert [illegible]ses Rotary

Sales Taxes Save S.S.F. Thousands

Property owners of South San Francisco will save .42 cents per hundred of assessed valuation in the fiscal year 1961-62 or total of $207,336 for that year, according to the new tax rate fixed last Monday night by the city council.

The substantial savings in property taxes has been made possible through revenue received by the city from the county-wide sales tax which went into effect throughout San Mateo county on January 1, of this year, City Clerk Arthur Rodondi pointed out.

When City Manager Eugene Aiello presented the recommended tax rate to the city council he stated that the amount of revenue needed from property taxes for 1961-62 would total only $1,025,740 as compared to $1,233,076 required for the fiscal year 1960-61.

Records of the city clerk's office disclose that up to August 7 of this year South San Francisco's city treasury received $290,505.55 revenue from the county wide sales tax. This figure is expected to exceed $500,000 for the year due to the heavier shopping period during holidays which still lie ahead, City Clerk Rodondi declared.

The new lower tax rate marks the first time in more than five years that such a substantial savings to property owners has been possible, he stated further. From the fiscal year 1956-57 through 1960-61 the city tax rate stood at either $1.565 per hundred or $1.56 per hundred, the records disclosed.

Acceptance of the bids and authorizing award of contract for Sewage Pumping Station No. 4 was delayed by the council Monday night. The bids ran considerably over the estimated costs and the council voted that the matter be referred back to the city engineer for a re-evaluation.

S. City Marina Plans Okayed

Approval of the plans and specifications for the $625,000 South San Francisco Marina at Oyster Point was voted Monday night by the south City City Council and consulting engineers John A. Blume and Associates were authorized to advertise for bids.

The Marina program, which has long been under discussion and various tentative planning stages by the city, was one of the first in northern California to be granted in allocation by the State Division of Small Craft Harbors.

The state allocated $725,000 as the sum to be set aside for development of the Marina on a loan to the city basis. However, the state presently has approved only a $525,000 loan feasibility for the South San Francisco Marina. This means the city may have to come up with approximately $50,000.

ELEMENTARY BOARD HIRES 3 TEACHERS

The Board of Trustees of Jefferson Elementary School voted approval Monday night of Superintendent Richard Foster's recommendation to hire three new teachers for the 1961-62 school year

The new teachers are Mrs. Angelina Friedman, salary $4,900, as contract annual substitute; Mrs. Bonnie Johnston, salary $6,988, as physical education teacher at Benjamin Franklin School, and Mrs. Matilda Haley, salary $6,326, as kindergarten teacher at Woodrow Wilson School.

School Shift

(Continued from Page 1)

cated by parent and property owner groups. This location, designated in the State Highway engineers' files as Plan B, was strenuously objected to by property owners, parents and school authorities during a hearing held in Daly City by the highway commission May 2 of this year.

POINTS RECOGNIZED

In prefacing his recommendation to the board, Foster recognized the "valid points" which both groups of parents had advanced in their open letters to the board, petitions and statements at a previous meeting held at Columbus School August 17.

He also pointed out that his proposal was based on three major points that he and his staff had studied:

1. **All school boundary lines to remain as they were for the 1960-61 school year.**
2. **A shift in assignments of both schools.**
3. **The compromise recommendation shifting Lincoln School boundary south to include Ridgefield-San Juan avenue pupils. Move Westlake Terrace pupils to the new school and transfer pupils living south of the new Lincoln School boundary line to Columbus. This would leave the Westlake Knolls pupils living closest to Lincoln School in that school.**
4. **That this compromise program of pupil assignment is to be reviewed when and if the lateral freeway is constructed.**

Of the several parents from the Westlake Knolls area speaking in opposition to a shift to Columbus School, most of them stressed the matter of safety for their children in walking to and from the school when the freeway is started. (This will probably not be before seven to 10 years from now, State highway engineers claim.)

At one point, Mrs. Larry Green, 630 Clarinda avenue, Westlake Knolls, said she was not opposed to her children attending Columbus School but they would have to have bus transportation due to dangers of a freeway under construction.

FREEWAY FAR IN FUTURE

Robert Peterson, 575 Skyline, west of Skyline group, stated emphatically on the basis of information obtained from the State Highway Department that the proposed lateral freeway, Route No. 56, Sign Route No. 1, will not be started in the immediate future. It has a low priority listing on State Highway projects and probably will not be started for another seven years and perhaps 10 years.

Peterson also pointed out that school children will be protected from danger when construction does start by safety fences and guards at truck and bulldozer crossings.

Rubin Tepper, 400 Westmoor avenue, Palisades, informed the board that the children west of Skyline freeway had been more or less orphans in the school setup and that his boy had been forced to change schools five times in four years. He strongly urged the board of trustees to approve the compromise pupil assignment plan recommended by Foster.

FOSTER PROPOSAL OKd

Another vocally strong endorsement of the compromise plan uttered by Stanley Jones, 351 Skyline drive, west of Skyline boulevard, who said, "I strongly endorse the new proposal made by Mr. Foster. When the time comes that construction of the proposed lateral freeway is about to start, then we can discuss and decide any proposed change of pupils from one school to another."

"We welcome the proposal by Mr. Foster," said Mrs. Esther Pava, 350 Skyline drive. "I was all prepared with a lengthy protest against the change but Mr. Foster's proposal has eliminated any need for it."

Many of our children can and do walk to school at Lincoln, she pointed out. Up to last year they did not have an opportunity to make and socialize much at school. Now they can continue to walk.

They can go to school early, if they wish, and play with schoolmates and they can stay later at the school grounds for after-school play. This plan will also eliminate the threats of a long, lonesome walk home if a child misses a bus home, she said.

Mrs. Pava also stressed the fact that by leaving the west of Skyline pupils at Lincoln School many mothers from families that do not have two cars can walk to and from the school to participate in PTA, School Week and Room Mother activities.

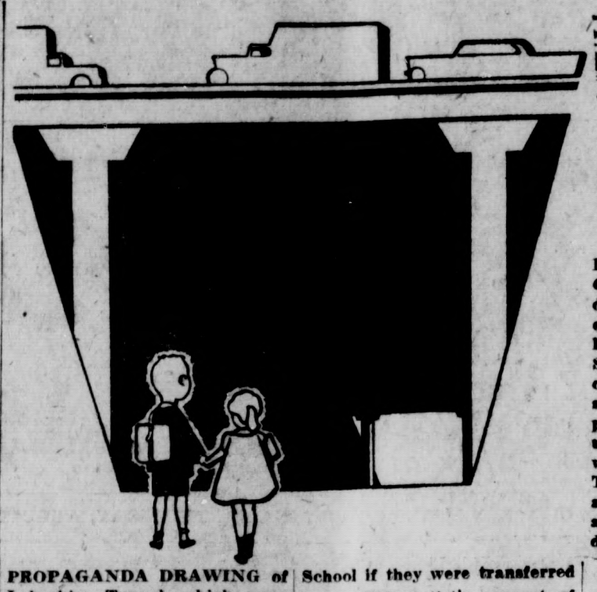
Larry Graubart, 37, Ridgefield avenue, endorsed Foster's proposal and urged the board to give it favorable consideration. Mrs. Jack Seltenrich, 51 Pacifica avenue, spoke with great urgency against pupils south of the Ridgefield-San Juan avenue lines having to walk through a construction area if reassigned to Columbus School. She stressed the fact that safety of the youngsters was her main objective. "There are no sidewalks along the streets where they will have to walk," she said. "The children will have to walk in the streets." (In this, she was obviously referring to Higate drive and St. Francis boulevard, presently unimproved extensions.)

Gene Gelphman, 464 Lakeshire drive, Westlake Knolls, and Mrs. Susan Biederman, 49 Northridge drive, west of Skyline, both spoke favorably on the compromise plan, but Gelphman stressed safety precautions for children walking to school from the north side of the projected freeway.

When Mrs. Katherine Mullen, Joseph Lewkowitz and Thomas F. Noonan, discussing the proposal with other board members, expressed concern over the safety factors, Superintendent Foster assured them the district administrative staff would make a study of all such matters and confer with proper authorities. He also told them that it might be possible for the school district to put in some asphalt sidewalks along the routes the children will walk to Columbus School. This is a matter of only two city blocks on Lakeshire and St. Francis, it was pointed out.

Although Trustee Noonan expressed the belief that the compromise plan did not solve anything because the board can offer the parents no guarantees for the future, he voted favorably on Dr. Calvert's motion to approve the proposal.

A majority of the parents attending the meeting stopped after its adjournment to compliment Superintendent Foster and congratulate the school board members on the action they had taken.



PROPAGANDA DRAWING of Lakeshire Tunnel, which some parents in the Westlake Knolls area envisaged as the 300-foot-long, dark and dank pedestrian walk their children would have to travel through to walk to and from the new Columbus School if they were transferred there. This artist's concept of the Lakeshire tunnel was first printed in a pamphlet designed to contest location of the new lateral freeway north of Columbus School.

LAKESHIRE DRIVE UNDERCROSSING as designed in a drawing from State Highway engineers' files of the proposed lateral freeway on Route 56, Sign Route No. 1, upon which construction is not expected to start until about 1969. This photo reveals a well lighted underpass 60 feet wide, overall, with sidewalks on each side. The overpass freeway will be an average height of 40 feet above Lakeshire drive. This drawing is also indicative of the undercrossing for St. Francis boulevard, which will also be 60 feet wide with 28 feet between the level of that street and the overpass. Both undercrossings will be approximately 135 feet long under the freeway. There will be no 300-foot-long tunnel-like pedestrian underpasses as shown in some exhibits placed before the State Highway Commission during the hearings in Daly City, May 2 last, State engineers claim.

1,000 Frosh

(Continued from Page 1)

Those students living east of Junipero Serra blvd. are to report to Jefferson. Those students living west of Junipero Serra blvd. are to report to Westmoor.

3 Men Added

(Continued from Page 1)

men. There, they will employ the various tactics they have learned throughout their training.

Until the completion of the six weeks of training, the three men are not allowed to go on fire calls, Hanson said.

Westlake Knolls Group Fires New Barrage In Hot School Move War

Just as the board of trustees of the Jefferson Elementary School District were preparing Monday of this week to hear recommendations on shifts of pupils from Thomas Edison and Abraham Lincoln schools to the new Christopher Columbus school another protest was registered with the board membership.

The new attack on the proposed shift of pupils was from the Westlake Knolls parents group. It was obviously filed in answer to one registered with the board and Richard Foster, district superintendent of schools, by the Palisades and Heights group of parents residing west of Skyline Blvd.

In the case of the west of Skyline parents, the protests over the proposed shift came in three forms. One, an open letter to the board of trustees, as fully reported in this paper last week. Second, a petition signed by 330 parents and property owners, and third, verbal protests delivered in person by a number of the west of Skyline parents at the special invitational meeting held at Columbus School last week.

The Westlake Knolls group, who had previously filed a petition signed by 250 persons, also expressed themselves against any move of their children at the invitational meeting and registered their newest complaint in the open letter, a copy of which was received by this newspaper last Friday.

The open letter, signed only by "petitioning parents, Westlake Knolls," reads as follows:

An Open Letter to the Elementary School District Board from the Westlake Knolls Group:

"Dear Sirs and Madame,

"In response to an open letter by the "West of Skyline" petitioners, we wish to state all of our reasons as they did.

"(1) The action involved in constructing a freeway 40 feet high involves the use of bulldozers, piledrivers, trucks, etc., and this constitutes a danger to any children having to walk across this area in order to attend school.

"(2) Assuming that the freeway is built, the fact that small children will have to traverse through a tunnel without adequate supervision constitutes a potential danger to the children.

"(3) It is not logical or rational that children who live within easy and safe walking distance of one school (Lincoln) be forced to attend another school (Columbus) in deference to another group of children (Palisades) who could just as easily ride the distance in a bus which they are already taking. Since we are all paying for the use of these buses, we should derive some benefit from them also.

"(4) There is no hardship being imposed on the Palisades group since they have been told that they would have the same teachers and administrators as before. The only change would be a two-minute extension of bus-time and the privilege of having use of the best school plant in the district.

"(5) Their reasons that Lincoln is their school is unfounded as the school belongs to all of us. Also, our children have made as many school changes as their children have. In fact, win or lose, our children will be uprooted from their present schools. We, also, are tired of making school changes, but we are not taking issue with this as the other group has.

"(6) The difference in distance between the two schools in question relative to the distance of the schools from the Palisades should not change their participation in 'school activities such as Public School Week, etc.,' as they claim. Certainly if they say that little children can walk a few blocks extra then why not adults, assuming that they have been in the habit of walking to these extra-curricular activities in the past.

"(7) The fact that their 'children will not be able to make use of the playgrounds after school and in the summer' has no bearing on either petition as this is true no matter where the Palisades children attend. This is unfortunate. However, our children play on the street also and we think that the playgrounds in that area are adequate. The children have fun there even if the parents don't.

"(8) We feel that parents and children can develop an interest in their school and in PTA even if they are known to be temporary. We have done it.

"Respectfully,
"Petitioning Parents,
"Westlake Knolls."

STATE FAIR PLANS KIDS' SPECIAL

A bevy of kids' TV show stars, headed by Dr. Horatio Q. Birdbath, zany Spike Jones performer, will be on hand opening day of the State Fair, August 30, to entertain kids of all ages. The Fair, which runs until September 10 in Sacramento, will admit all children up to 16 years of age free.

OBITUARIES

Americo J. Bianchi

Funeral services were held Monday at the mortuary of W. C. Laswell & Co. for Americo (Rico) J. Bianchi, 44.

Bianchi, a native of San Francisco, died on August 17. He was buried at Golden Gate National Cemetery.

He had lived in Daly City for the past six years. He was a member of Sunset Scavenger Co. and the Teamsters Union Local 838.

He is survived by his wife, Betty; a son, William King, and brothers Louis, Peter and John Bianchi; and four sisters, Mmes. Linda Houser, Mella Perna, Frances Troche and Melba Friis. He was the son of Maddalena and the late Poalo Bianchi.

Katherine J. Donley

Funeral services were held Sunday for Katherine J. Donley at the mortuary of W. C. Laswell & Co. Inurnment was at Olivet Memorial Park.

A native of Germany, she had lived in California for 37 years, and Daly City for 22. She lived at 1258 Brunswick street. She was a member of the Litographers Union Local 17.

She is survived by her husband, Charles; a son, Charles Donley, Jr.; a daughter, Mrs. Katherine McQuiston, and two grandchildren, Robert Donley and Mona Kay McQuiston.

The ladies of California will be guests of honor at this year's California State Fair in Sacramento. All ladies will be admitted free at the race track every Friday afternoon during the Fair's 12-day run, August 30 through September 10.

San Mateo County Tops State Average In Taxable Assessed Valuations Increase For 60-61

Taxable assessed valuations in San Mateo County for 1961-62 amount to $889,085,089, an increase of 6.9 per cent over the figure of $831,532,554 for 1960-61, according to a recent California Taxpayers' Association report of values before equalization. On a per capita basis, the change was from $1,871 in 1960-61 to $1,999 in the current year.

Statewide total assessed valuations have reached a high of $31,582,863,725 for 1961-62, up 6.7 per cent from the $29,600,924,411 for 1960-61. The per capita share for each man, woman and child in California increased from $1,883 last year to $1,969 for 1961-62. Total valuations in the State are rising at better than three times the rate of the population increase of 2.1 per cent when the two years 1960-61 and 1961-62 are compared.

Six counties, Alameda, Los Angeles, Orange, San Diego, San Francisco and Santa Clara, have valuations of more than one billion dollars each, and account for nearly 60 per cent of the total State valuations in 1961-62 and about two-thirds of the total population.

Nine counties in the current year show increases in total assessed valuations within one-half of 1 per cent of the State increase of 6.7 per cent, that is between 6.2 per cent and 7.2 per cent. In ascending order, the counties are Riverside, 6.3 per cent over 1960-61; Shasta, 6.5 per cent; San Bernardino and San Luis Obispo, 6.6 per cent each; Amador, 6.7 per cent; San Mateo, 6.9 per cent, and Butte, Monterey and Nevada, each with 7 per cent.

JEFFERSON Union High School District's adult evening schools this fall will offer more than 14 day and night sewing classes, like the one pictured above. For locations offering classes nearest your home, call PL 5-1162 for information.

Adult Program At SM College Opens Sept 11

The Fall Semester of the twenty-sixth annual program of extended day and adult classes offered by the College of San Mateo will open on September 11.

These classes, scheduled by the Extended Day Division of the College, are open to persons who are 18 years of age or over or high school graduates and offer an opportunity for adults to further their educational interest in a given area, to complete additional educational requirements for employment or for degrees and to develop new interests. During the spring semester of 1961 over 7,000 individuals, ranging in age from eighteen to eighty-plus, enrolled in a wide variety of Extended Day classes.

Schedules giving details of units, time, day, place, room and instructor for each of the classes to be given in the fall are now available for individual distribution in the public libraries on the Peninsula. They may also be obtained at the Extended Day office on Coyote Point and will be mailed on request.

Interested persons may obtain further information regarding degree requirements and transfer programs by attending a counseling meeting to be held on Wednesday, August 30, at 7:00 p.m. in Room 19-G on Coyote Point. Time will also be given to individual questions at this meeting. Those with special problems regarding their educational programs should contact the Extended Day Division office, DI 2-1421.

The program offers approximately 250 classes in various areas of study including aeronautics, agriculture and horticulture, apprenticeship and trade, art, business and business administration, electronics, engineering, English, foreign languages, health education, homemaking, mathematics, physical and life science, economics, history, philosophy, political science, psychology and speech and drama. Many of the courses provide units towards a junior college degree and/or transferable units towards a bachelor's degree at a four-year institution.

Certificate programs are also available in the fields of industrial management, business management, real estate, vocational gardening, arnamental horticulture, and other vocational areas. These and other programs are developed with the assistance of community advisory committees.

Classes are held on the Coyote Point Campus, the Delaware Campus, Hillsdale High School, Capuchino High School, and various other locations throughout the San Mateo Junior College District. Registration takes place in class during the first scheduled meeting, and the registration fee is $1 per class per semester plus necessary textbooks and supplies.

Placement tests or satisfactory grades in prerequisite courses are required for students interested in college English classes or mathematics classes other than Algebra (Math A) or Plane Geometry (Math B). English placement tests will be held on August 26 at 8 a.m. in the Men's Gym on Coyote Point and on September 5 at 7:30 p.m. in Room 17-AB on Coyote Point; mathematics placement tests on August 26 at 3 p.m. in the Men's Gym on Coyote Point and on September 6 at 7:30 p.m. in Room 17-AB on Coyote Point.

A catalog describing Extended Day courses is available on request at the Extended Day office. Brochures describing the Business Management and Industrial Management Certificate Programs, the Real Estate Certificate Program, and Transfer Programs are also available. The office is open Monday through Friday from 8 a.m. to 4:30 p.m.; beginning August 30 the office will also be open from 6:30 p.m. to 10 p.m. Monday through Thursday. General information and help in program planning may be obtained during those hours.

GERALD Paul McMahon, of 6 Clearview drive, a 24 year-old student at San Francisco State College is one of the members of the first contingent of the U. S. Peace Corps slated for duty in Colombia. Gerald is pictured aboard the Flota Mercante Grancolombiana's liner, "Cuidad de Narranquilla," in Pier 13 in Brooklyn. He is one of the first to serve under President Kennedy's government to government assistance program. He can operate tractors and bulldozers, knows farm equipment, is expert with surveyors,' plumbers,' electricians,' masons' and metal workers' tools.

Veterans: Apply At Once For Fall School Entrance

Students who want to attend school or college this fall under either federal or state educational assistance programs for veterans or dependents should call immediately at the San Mateo County Veterans Service Office, located at Courthouse, Redwood City, for assistance in making application.

Whether the student is himself a Korea veteran; is a "war orphan" (son or daughter of a veteran who died as the result of service); is the surviving spouse of a deceased veteran; or is the child of a veteran totally disabled at any time as a result of service, the time is now for getting into the school or college of choice.

Applicants who are in need of general information on assistance programs may avail themselves of material on hand in the Veterans Service Office, and may be referred to an office or representative of the State Department of Veterans Affairs or Federal Veterans Administration for specific counseling.

An early start on fall applications is important, so that any and all legal provisions, including eligibility of the applicant and suitability of his desired course, can be determined in plenty of time for start of the term.

State "Cal-Vet" educational assistance has been extended this year to include dependents of servicemen who died or were totally disabled as a result of any peacetime military service since September 16, 1940.

State assistance is intended, however, to supplement federal educational programs and may not be used at the same time. State aid may be used to pursue courses requiring training beyond the limits of a student's federal benefits, or where the student has no federal entitlement but may be eligible under the State's broadened program.

Men Complete Special Course Two Westlake

Raymond L. Kehrt, Jr., 48 Avalon, and Charles E. Rigot, 6 Westline, have just completed a special 49-week professional course in advanced life insurance underwriting.

Kehrt and Rigot are agents here for the Prudential Insurance Company.

Lou Lavine, district manager, marked successful conclusion of the studies by presenting the local residents with a certificate of completion signed by Charles "Pat" Waters, CLU, executive director of agencies for the company.

Purpose of the course, Lavine said, is to enable Prudential agents to provide the highest possible degree of service to their clients.

DC MAN ATTENDING POST-GRAD SCHOOL

Glenhall E. Taylor, Jr., of 23 Eastgate drive, is attending the University of Washington's Pacific Coast Banking School. He holds the position of assistant cashier in the credit department at the San Francisco headquarters of Wells Fargo Bank American Trust Company.

This year's resident session on the Seattle campus is his second of the three required for graduation. Also required are 21 months of correspondence study and a major thesis on a specialized phase of banking.

Glenhall E. Taylor, Jr.

Taylor, who holds a B.S. degree from the University of California, has been attending the advanced banking school in line with the Wells Fargo American Trust policy of giving experienced officers the opportunity to keep informed of latest developments in banking, business philosophy, and economics.

BIANCALANA IN FAR EAST

YOKOSUKA, Japan — Serving in the Far East aboard the heavy cruiser USS Saint Paul, operating out of Yokosuka, Japan, is Douglas A. Biancalana, fireman apprentice, USN, son of Mr. and Mrs. E. A. Biancalana of 84 Fleetwood dr., Daly City.

"Horseless Carriages" Due In Bay Area September 2-4

Look out, Grandma! We're doing over 10 miles per hour.

Citizens of San Francisco, Marin County and the Peninsula have been requested to keep a tight rein on their horses during the weekend of September 2, 3 and 4, when over 60 vintage automobiles, ranging from 1901 to 1932, descend upon the area.

The sputtering, snorting three-day event attracting the large number of antique cars is the Biennial "Weekend in San Francisco" conclave sponsored by the San Francisco Regional Group of the Horseless Carriage Club of America.

Horseless carriages and classic cars will chug into San Francisco from as far as Washington, Oregon, Idaho, Nevada, Arizona and all of California to gather at the Jack Tar Hotel on Saturday, Sept. 2, for the 10 a.m. registration.

Grandmother may think the clock has been turned back. Not only are the automobiles dated, but so will be the clothing of the horseless carriage owners and their wives as authenticity in every aspect of the periods past is of prime importance to the Horseless Carriage Club.

Under the direction of San Francisco Regional Club president Roland Zillmer of Burlingame, tours and reliability runs will be held with trophies awarded on the third and final day of the convention.

And, the cars do run. A tour of Marin County will follow registration. The caravan of dusters and flowing skirts on thin wheels will plug and chug across the Golden Gate Bridge, through Forts Barry, Cronkhite and Baker to Sausalito, up to Mt. Tamalpias, down to Alpine Lake and on to Fairfax for a picnic at the Marin Town and Country Club. Then back to San Francisco.

On Sunday, the Day of Truth, the wheels of antiquity will turn south down the Peninsula on a reliability run, with lunch at the Pioneer Hotel in Woodside before returning to San Francisco.

The route to be taken and the time estimated is a locked secret, for this is the test of reliability with trophies awarded to the winners.

No odds have been posted.

On Monday, following a somewhat less strenuous tour of Golden Gate Park where the only danger is the embarrassment of a squirrel outdistancing the "electric," a breakfast will be held at the Cliff House with plaques and trophies being awarded.

Then, once again past decades will fade away—at least for two more years.

Bowling Ball Has Role In Re-entry

An ordinary bowling ball played a key role in the world's first recovery of a man-made object from orbit.

This was revealed recently by scientists from Lockheed Missiles & Space Company, builders of the Agena satellite used in the Air Force's highly successful Discoverer program.

The bowling ball was used as a large bearing on which the capsule's redesigned spin rocket system was tested. The spin rickets mounted on the side of the capsule give it a stabilizing twirl during the re-entry phase following separation from the satellite.

Analysis of data from early flights in the Discoverer series revealed that failures to recover the capsule were due to the malfunction of the spin system which used hot gat jets. This made it almost impossible to predict the re-entry trajectory.

Engineers came up with a new system — one employing cold gas actuated by explosive cartridges.

The new system had to be thoroughly tested before it could be put aboard a satellite. The job was assigned to the ordnance research organization at the Santa Cruz Test Base.

To simulate as nearly as possible how the system would operate in space, a mock-up of the re-entry capsule was mounted on the bowling ball bearing which, in turn, was literally supported on a cushion of air.

The ball, an off-the-shelf item, was found to be almost perfectly balanced and within one 1,000th of an inch of being an almost perfect sphere.

Spinning on its almost frictionless ball bearing, the cold gas system was subjected to exhaustive testing and passed with flying colors. Flown for the first time on Discoverer XIII, it scored a historic "strike."

Discoverer XIII was the first satellite ever to return a man-made object from orbit. Since then there have been five other recoveries of Discoverer capsules.

SPEEDSTER IS HIGHWAY KILLER

The emphasis on speed as the No. 1 killer on California highways usually refers to the driver who exceeds the posted or safe limit.

"But speed is a double-edged weapon; it can kill in another way;" pointed out Highway Patrol Commissioner Bradford M. Crittenden.

"Vehicles which move so slowly that they block the normal flow of traffic can cause accidents. An otherwise sensible motorist, exasperated at the slow driver's actions, may be provoked into a fatal error.

"Particularly irritating—and dangerous—is the driver who pokes along in the last lanes of a multi-lane highway or freeway," the commissioner said.

"This driver actually is violating two laws. The vehicle code not only provides that vehicles traveling slower than the normal flow of traffic must use the right-hand lane, but also makes it a violation to drive at such a slow speed that the normal and reasonable flow of traffic is impeded.

"The key to safe travel is to move with traffic, neither exceeding it nor impeding it. In this way, every driver can proceed both smoothly and safely," he said.

It's News To Vets

Questions and Answers

Q—Will the Veterans Administration reimburse me, or the undertaker involved, in connection with the burial of my son in 1956? He was a war veteran.

A—Although payment not to exceed $250 is made by the VA toward the expense of the permanent burial or cremation of a veteran, the claim must be filed with two years after the burial or cremation. It would appear that the time limit for this claim has expired in your case.

* * *

Q—Since $15,000 may now be obtained through a direct GI loan, and since the house I am buying by this method will only cost $13,500, can I get an improvement loan for the remaining $2,000 at the same time?

A—You can file for a direct loan to cover the cost of the house and for an improvement loan at the same time, if the total will not exceed $15,000.

* * *

Q—Is it necessary that I finish high school in order to enter training under the War Orphans program?

A—Certain vocational programs can be entered upon under War Orphans Act provisions without a high school diploma. Consult the nearest VA office for more complete details.

* * *

Q—Has Congress granted any special benefits to peacetime veterans yet?

A—Although several proposals of peacetime benefits have been discussed in Congress, none has been enacted into law thus far.

Daly City Library Circulation Shows Healthy Growth

The Daly City Library Commission held its regular monthly meeting on August 9 in the Westlake Library and heard reports from Sam Chandler, city librarian, on the budget for the coming year and figures pertaining to the increasing circulation of books in the city.

The commission is studying ALA standards for libraries to determine whether or not the City Library is meeting desired requirements.

Mrs. Maude Hanselman, commission chairman, presided and expressed satisfaction with the services the library is giving to subscribers and its aim to improve these services in the future.

CROCKER-ANGLO TO OPEN OFFICE IN SKYLINE PLAZA

Crocker-Anglo National Bank has leased space in which to establish a fourth office in San Mateo County, it was announced recently by President Paul E. Hoover. Quarters will be constructed for this new banking office in the 10-acre Skyline Plaza Shopping Center, bounded by Skyline boulevard, Westmoor and Southgate avenues in the Westlake area of Daly City.

The new Crocker-Anglo office, which is expected to be opened for business next month, will occupy 3,950 square feet in an L-shaped building. The banking center will feature seven teller windows, a conference room and a night-and-holiday depository, and there will be a lunchroom for staff members.

Dennit Vigren Wins State Scholarship

Dennit T. Vigren of Daly City was named a winner for a 1961 state scholarship, reported Assemblyman Louis Francis of the 25th Assembly District today.

The local student, who resides at 79 Ridgefield avenue, won his scholarship in competition with more than 9,000 top ranking students in California high schools and colleges under the State Scholarship Program.

His scholarship award is for an amount equal to tuition and necessary fees to a maximum of $900 per year. The award may be used at any two or four-year collegiate institution accredited by the Western College Association and located in California. There are no restrictions as to the type of undergraduate program selected by him.

"I share a great sense of pride in knowing that this fine young student will receive this assistance in fulfilling his plans for college education," said Assemblyman Francis.

Accountant Group Accepts DC Resident

Ross E. Schendel, of Daly City, has been accepted as a member of the San Francisco Chapter of the National Association of Accountants it was announced by Mario Mazza, chapter president.

Schendel is an accountant and auditor for Robert E. Hunter, C.P.A. and attorney. He has an A.A. degree from City College, San Francisco and a B.S. degree from Golden Gate College, San Francisco.

Forest fires destroy what nature has taken hundreds of years to grow; don't let some careless act cause destruction.

LIBRARY BOARD IS PLANNING PART IN GOLDEN JUBILEE

The regular Board of Directors meeting of Friends Of The Daly City Library was held at the Westlake Library last week and committees were appointed to work on the group's participation in the Daly City Anniversary Celebration, also the Garden Club show.

Mrs. H. S. Garrison will head the committee for the Garden Club Show assisted by Mrs. Howard Doerr, and an attractive exhibit stressing the Library and books will be the theme.

A general meeting of Friends Of The Library will be held September 21 with Henry Sundermann, Sr. as the main speaker. He will talk on the early days of the library in Daly City.

A report was given on the book review program which is scheduled to start in September. This program was highly successful last year and an interesting group of speakers has been arranged for scheduled, according to Mrs. Gertrude Kendree. The first book review will be given September 28.

Members who have not renewed their membership are urged to do so at once, Mrs. Kendree said. Send renewals to Mrs. Frank Kelecheva, 141 Windsor drive, Daly City. New swollen parts are classed as succulents and are found in members are urgently needed and those interested should call Mrs. Kelecheva at PL 5-7732, or Mrs. Thomas Brewer at PL 5-2847.

Puget Sound Dock

Serving aboard the attack aircraft carrier USS Hancock, undergoing overhaul at the Puget Sound Naval Shipyard, Bremerton, Wash., is Robert E. Jones, journalist second class, USN, son of Mr. and Mrs. Edward S. Jones of 677 Grand avenue, South San Francisco.

Super Highways Luring Motorists On Longer Trips

High-speed highways, stretching luxuriously over and away from busy city streets, are luring drivers on longer and longer trips.

But along with the joy of rolling unchecked for hundreds of miles on roads as smooth as silk, the driver has taken on a new peril—highway hypnosis.

The San Francisco Chapter, National Safety Council says, "Many drivers having accidents on superhighways were found to be asleep, lulled by the boredom and unnoticed fatigue of long stretches of perfect driving."

Experienced superhighway drivers use many tricks and gimmicks to keep themselves alert and alive. "They chew gum, sing aloud, listen to the radio, talk to themselves or passengers, call out roadsigns and even watch for out-of-state license plates," the Council says.

Some of the suggestions for avoiding highway hypnosis are:

1—Be sure you are in good shape. Don't try to drive when weariness creeps up; pull off safely to one side of the road and take a nap. A simple headache can rob you of alertness.

2—Make sure your car is in tiptop shape — brakes, lights, tires, etc.

3—Stop every now and then, even when you don't feel tired. Have a cup of coffee, slap cold water on your face and relax for a few moments.

4—Watch everything around you. Staring straight ahead is one sure way to slip under the spell of the highway.

5—Rely on yourself and don't put blind faith in signs and signals. Somebody may decide to ignore that stop sign.

New Laguna Salada Pupils Must Sign Up On August 29

New students in the Laguna Salada school district will have to register early for the start of school September 11, according to school officials. All students new to the district must register Tuesday, August 29. Registration hours are 8 a.m. to noon and 1 p.m. to 4 p.m.

Elementary schools of the district are expected to show a new high in enrollment this fall. School authorities place the estimated figure at 5,900.

Parents must bring proof of birth for all new pupils entering kindergarten and the first grade. Children are eligible for kindergarten if they are four years and nine months of age before September 1 of this year. Pupils in other grades should bring a transfer or report card from the last school which they attended.

GET-ACQUAINTED PARTY PLANNED BY PLAYMATES

A "Get-Acquainted Party" for prospective members will be given by Playmates Cooperative Nursery School on Tuesday, August 29, at 8:15 p.m., at the home of Mrs. Robert S. Denebeim, 19 Rosewood drive. Assisting will be Mrs. Ernest Leff, president, and Mrs. Lawrence Holmes, vice-president.

Playmates Nursery School at 36th avenue at Taraval is accepting enrollments for preschool children for the fall term opening September 11.

Sponsored by the San Francisco Adult Education Division, the school is operated by parents under the guidance of trained nursery school teachers. Daily sessions for 3 to 5-year-olds runs from 9 to 11:45 a.m.

Commerce Expert Addresses Rotary

Dr. Tom Wilson of San Francisco State College, who formerly was with the U. S. Department of Commerce for 25 years, spoke to the Daly City Rotary Club this week on trade agreements between countries.

He spoke in particular with reference to the Europeon Common Market and the recent interest of Great Britain in joining this community. Wilson also made some general observations with respect to conditions in Europe.

Finemaster was Rick Richter. Wilson was introduced by Rotarian Tom Lewis.

DESSERTS OF THE WEEK FROM Betty Crocker

Nice thought for summer—cake and fruit. Bake your cake in the cool of the morning and when dinner time comes round, you're ready with a treat the whole family will love. Here are three we like especially.

Cake-of-the-week:

LEMON FRUIT 'N CREAM CAKE

Delightfully cool and lemon-y! Bake Betty Crocker Lemon Velvet Cake Mix in two 9" layers as directed. Split each layer to make 4. Prepare Betty Crocker Lemon Fluff Frosting Mix; set aside to cool. Whip 1 cup whipping cream until stiff; fold into frosting. Reserve 1 cup for top of cake. To remainder fold in 1 cup fresh or canned seedless grapes, halved, ½ cup chopped walnuts and 1 cup canned Mandarin orange sections, drained. Spread between layers. Spread top of cake with reserved frosting. Decorate with whole grapes and walnut halves. Chill.

Family favorite:

PEACH GLAZED CAKE

Bake Betty Crocker White Cake Mix in layers as directed on pkg. Cool. Combine contents of 1 can (1 lb. 6 oz.) peach pie filling with ¼ tsp. cinnamon and 1 tbsp. lemon rind. Prepare 1 pkg. Betty Crocker Fluffy White Frosting Mix as directed on pkg. Spread 1 cup of frosting over bottom layer; spoon on ½ cup of pie filling. Cover with top layer; frost sides and top with remaining frosting. **Fruit Glaze:** spoon more pie filling over top of cake, allowing it to drip down sides (add few drops water to pie filling, if necessary). Chill.

To say "I love you":

BLUEBERRY HEART CAKE

Great for birthdays or any days. Bake Betty Crocker Yellow Cake Mix in **one square pan, 8x8x2", and one round pan, 8x1½".** To make heart-shaped cake: place square cake on large tray or breadboard covered with aluminum foil with one point toward you. Cut round layer in half. Arrange each half cut side against top corners of square to form heart. Beat 2 cups whipping cream with ½ cup **sifted** confectioners sugar until stiff. Fold in 1 tsp. vanilla. Frost top and sides of cake. Cover top with fresh, sugared blueberries.

BETTY CROCKER makes the difference... the difference you can taste

NEWLYWEDS Mr. and Mrs. Donald T. Yerby (June Snead) are pictured above following their recent wedding at Corpus Christi Church in San Francisco. Couple later departed for a honeymoon in Southern California and Nevada.

Yerby-Snead Wed In Solemn Rites At SF Church

Donald T. Yerby and June Snead were married recently in solemn rites at Corpus Christi Church in San Francisco.

Yerby is a graduate of Balboa High School, and attended City College of San Francisco, before seeing Navy duty. He is employed at Western Envelope Co. in San Francisco, where he met his bride. He is the son of Mr. and Mrs. Victor Yerby, 38 Sheffield drive, Westlake.

June is the daughter of Mr. and Mrs. Harry Snead, of 706 Avalon street, San Francisco. She is a graduate of Balboa High School also, and was employed at Western Envelope Co.

The couple honeymooned in Southern California and Nevada. They will make their home in San Francisco.

9 DC People Give To Blood Bank

Among the nine Daly City persons, who recently donated blood to the Peninsula Memorial Blood Bank, was one who made his sixteenth trip to give a pint of blood to the blood bank. He is Walter M. Randolph.

Others from Daly City who have recently contributed include Konstantinos G. Poulos, six; Mrs. Arlo J. Clark, five; Albert Lopez, three; Mrs. Gordon Raney and David L. Reynolds, two and three who gave a pint of blood for the first time. These last mentioned were Mrs. Paul Braziel, Louis A. Peterson and Mrs. Vincent Smith.

CHECK THAT CAR

Always have your car checked by a competent mechanic before you start on a long motor trip, advises the National Automobile Club.

Pacifica Girl Is Married In Escalon Church

In a double-ring ceremony performed by candlelight in the Escalon Presbyterian Church earlier this month, William E. Fortson was married to Maryann Ahlborn.

The bride is the daughter of Mr. and Mrs. Martin F. Ahlborn groom are Mr. and Mrs. T. W. Barkley of Escalon.

Escorted down the aisle by her father, the bride wore a floor-length gown of raw silk overlaid with silk organza. The sabrina neck line was off-set by short sleeves and a fitted bodice with a high wasitline topped with a small bow. Covering her head was a princess crown of pearls from which fell a fingertip veil of bridal illusion. A bouquet of yellow carnations shaped like a star and tied with lavender ribbon was carried by the bride.

Sole attendent was Miss Carol Warner, of Pacifica, a friend of the bride's since childhood. She wore a lavender flowered sheath overlaid with lavender organza and carried a nosegay of white and yellow carnations tied with lavender ribbons.

Best-man was James O'berg of San Jose, and ushers were Frank Franzia, of Ripon and Ross Mouer of Millbrae.

Miss Letitia Ellsworth of San Francisco sang "Perfect Love." She wore a blue organza dress.

The mother of the bride wore a sleeveless dress of raw silk designed with a bell skirt and patterned with blue and orchid flowers. The groom's mother appeared in a jacket sheath of light beige. Their corsages were of carnations and orchids.

Immediately following the ceremony a garden reception was held at the home of the groom's parents in Escalon.

Leaving for a honeymoon in California's "Mother Lode" country, the bride wore a light brown sheath with dark brown asscessories. Her outfit was topped by a white corsarge of cimbidium orchids.

Special out-of-town quests were Mrs. Ora Lansberry of Soda Springs, Idaho, and Paul Barkley of Mahattan, Kansas.

The newly-weds are at home in the Palm court apts. in Westlake.

Local Vocalist To Star With Choirs At Trinity Church

One of the principals in the presentation of "The Creation" by combined 60-voice choirs of an Episcopal and Lutheran church at Trinity Episcopal Church in San Francisco on Sunday, August 27, will be Georgia Prugh, soprano, of 177 Avalon drive, Daly City.

"The Creation," by Joseph Haydin, will be sung by choirs of Trinity Episcopal Church, San Francisco, and Grace Lutheran Church, Richmond. Trinity Church is located at Gough and Bush streets.

Music will be provided by 25 pieces of the San Francisco Symphony Orchestra through co-operation of Local No. 6, AFL-CIO Musicians' Union.

NEW SAFEWAY NOW UNDERWAY AT SO. GATE-ST. FRANCIS

Construction on the new Safeway store at Southgate Ave., and St. Francis Blvd., was underway this week. The new store will provide almost 19,000 square feet of shopping and warehouse area and parking for 100 automobiles.

Safeway officials state that large areas of the two acre site will be planted with shrubs and trees to enhance the appearance of the new supermarket.

The Midway Construction company of San Francisco is erecting the structure and constructing driveways and parking areas. Architects who designed the building and layout of grounds are Wurster, Bernardi and Emmons, also of San Francisco.

YOUNGSTERS rush out of the Serra Theater following a "Back-To-School" show, sponsored by the Westlake Merchants Assn., which was held on two days of last week. Some 2,000 youngsters attended the big event.

Pacifica Nursery Is Now Accepting New Enrollments

Applications for enrollment in the Pacifica Nursery School, Inc. (a parent participating organization), are now being accepted for the coming Fall semester.

The school, located at present in quarters at the First Baptist Church of Pacifica, 610 Edgemar avenue, Pacific Manor, is a cooperative, non-profit, nonsectarian organization incorporated under the laws of California and is managed by an executive board elected by all members whose children are enrolled.

The school is also a part of the Adult Education Division of the Jefferson Union High School District. The Tuesday evening meeting are actually classes in the subjects of child development and nursery techinques and feature films, group discussions, and numerous guest speakers presenting a variety of topics pertinent to the filed of child guidance.

At the nursery school the children engage in such activities as finger painting, easel painting, block building, music and dancing, story telling, various creative projects . . . and let off lots of steam on the tricycles, swings and other toys and sctivities provided for them outdoors.

Occasional excursions (supervised by the Director and participating parents) to various points of interest such as the Steinhardt Aquarium in Golden Gate Park, Junior Museum, Storyland at the Zoo, and the Shamrock Ranch are also greatly enjoyed. Through all these activities a child has the opportunity to learn the "give and take" of getting along with other children of his own age and have friendly contact with more adults than he would meet in the ordinary home situation.

At present, the school is operated on a split session with children from four to kindergarten age attending Monday, Wednesday and Friday. Mothers of children in this group participate in the program one moring a week. Tuition is $12 a month.

Children from two years nine months to four attend Tuesday and Thursday (although a three day program can also be arranged). Mothers participate one morning a week and the tuition is $10 a month. A five day week program is currently under consideration by the director and the executive board and may be put into operation if sufficient interest is evidenced.

Members attend not only from Pacaifica but also from the Pacific Heights section of San Bruno and the Westlake Terrace, Heights, Palisades, and Knolls sections of Daly City with car pools being arranged accordingly.

Anyone wishing further information regarding the school's programs and enrollment may call Mrs. D. A. Lazzeri, EL 9-1471.

GROW PRIVACY SO YOU CAN ENJOY OUTDOOR LIVING

Nothing dulls a man's enjoyment of outdoor living more than lack of privacy. Whether broiling a steak, sipping refreshment or soaking up sun, you like freedom from an intruding outside world.

You can build a fence to gain this privacy, but is a fence enough? Fences don't always block the view from the house next door, and fences by themselves are starkly barren. The California Association of Nurserymen recommends that a combination of fence and shrubs is a much better answer. And shrubs alone will often do the trick quite nicely.

The ideal shrubbery screen is out of the question for many modern landscapes. It consists of an informal planting several shrubs deep and in a variety of material to lend interest. Garden size is definitely a limiting factor with such an approach to the problem.

The straight-line planting of fall hedge material is better adapted to smaller gardens, and here the factor governing your choice is height. Will Privet grow tall enough for your needs or would the taller Brush Cherry be better? Taller and maybe even better yet would be English Laurel. Then, too, you should consider the matter of clipping. Do you want a formal, clipped screen or not. Privet and Brush Cherry are to be sheared, but the taller the screen the harder the job. English Laurel is easily and informally confined with minor pruning.

The combination of fence and plant material appeals to many, and there's no question that the contrast of foliage and wood has eye appeal. You can vary the height and density of the planting, concentrating it at the crucial spots where you would block out the view.

Victorian Box and Pineapple Guava are excellent for use with fences, the latter giving a bonus of tangy fruit in the bargain. There are many, many good shrubs for screen planting and many ways to use them. You need only define your needs and a local C.A.N. nurseryman can take it from there.

FOUR FROM GIRLS' STATE FACE WELCOME

On Tuesday, September 5, Eighth District, American Legion Auxiliary Department of California will honor the four Eighth District Girls State Citizens chosen to attend Girls' State at the University of California Campus at Davis. Chairman of this portion of the evening's program will be Mrs. Luella Hegre, Eighth District Girls' State Chairman.

The four girls who will give an interesting and spirited talk on their impressions and memories of Girls' State, are: Lynn Jean Dell 'Artino, a student at Presentation High School; Karen Buada, a student at Notre Dame Des Victories High School, Catherine (Katie) Spencer, a student of Star of the Sea High School, and Valerie Jean Olander, all of San Francisco.

Lt. Manning Now At S.F. Presidio

Army 2d. Lt. James R. Manning, 23, whose wife, Linda, lives at 300 Park Plaza drive., Daly City, recently was assigned to the 510th Engineer Detachment at the Presidio of San Francisco.

Lieutenant Manning, commander of the detachment, entered the Army in July 1960 and was last stationed at Fort Belvoir, Va.

RICO BIANCHI SUFFERS FATAL HEART SEIZURE

A heart attack was attributed as being the cause of the death of Rico J. Bianchi, 44, of 425 Abbott street.

Bianchi suffered the attack early Thursday morning at his home. He was taken to Junipero Serra Hospital by ambulance where he was pronounced dead on arrival.

Funeral services and burial were held Monday.

Boy Scout Worker Gets Scholarship From Lutherans

Herbert H. Stettler, 140 Edgemont drive, Daly City, has been awarded a Boy Scouter Lutheran Leaders' Training Course scholarship by Lutheran Brotherhood, fraternal life insurance society. The course will be held at Philmont Scout ranch, Cimarron, New Mexico.

Upon recommendation of the San Mateo County Council of the Boy Scouts of America and the National Lutheran Committee on Scouting, this scholarship was presented to Stettler for outstanding service as a Scout Leader in the Lutheran Church.

Stettler, active in Scouting for 11 years, is a member of Hope Lutheran Church, Daly City, and is associated with the Pacific Telephone & Telegraph Company.

Scouting has been an important part of Lutheran Brotherhood's fraternal and benevolent program since its founding and has received more than a quarter of a million dollars from the Society since 1936.

Mrs. McNally Joins North YWCA Staff

Joining the staff of the YWCA of North San Mateo County is Mrs. James (Lois) McNally of San Francisco who will assist Direstor Elaine Wolfe as a group worker

Born and raised in Maine, Mrs. McNally was a scholorship student at Barnard College in New York and received her A.B. from Columbus University in June 1949. After doing graduate work on a Fulbright Scholarship at the University of New Zealand, she did a special study in social services with emphasis on the work of the Royal New Zealand Society for the Health of Women and Children.

Mrs. McNally also worked in public relations for the United Community Services of Metropolitan Boston for Five years and as a Director of Volunteer Services for the Children's Hospital of San Francisco. For the past two years she was employed as a group worker and program director for the San Francisco YWCA, 620 Sutter street.

Mrs. McNally's husband is an entomology graduate from the University of California and is now employed by the Montgomery Pest Control. They have a son, Sean Michael, who is two.

Mrs. McNally will begin her staff work in this area on September 5 and has already planned adding to the Y program with a Y Wives Club and a Colloge for Housewives which will include classes in fashions, interior decoration, child psychology, gardening and literature.

"Open Gardens" Program Listed For August 27

Mrs. Dora Kusber, president of the Daly City Garden Club, extends a hearty invitation to all garden enthusiasts, friends and neighbors of members to visit the following gardens on Sunday, August 27 at the hours and places mentioned herein:

Gardens of: (From 3 p.m. to 5 p.m.) Mr. and Mrs. P. B. Smith, 229 Westridge (Westlake). Mr. and Mrs. J. P. Hargrove 107 Village Lane, (Colma).

Gardens of: (From 7 p.m. to 8 p.m.) Mr. and Mrs. Richard Hunter, 438 Crocker avenue. (Daly City). Mr. and Mrs. Joe Kusber, 60 Werner street. (Daly City).

Each of these gardens offer something different in type and style of garden and all are most interesting. The public is also invited to visit these gardens at hours stated.

Girl Scouts' Sierra Group Have Returned

Parting was such sweet sorrow for the 40 Senior Girl Scouts who returned last Saturday from a two-week trip to the High Sierras.

The Girl Scouts represented many Bay Area cities including Livermore, Concord, San Carlos, San Mateo, Oakland, Pacific Grove, Redwood City, and Daly City. Marsha Ojakian, Senior Mariner Scout from Ship 13 under the leadership of Mrs. Ralph Damon, was the representative from Daly City.

According to reports from Marsha, this was one of the most memorable camping trips for the girls. Each of the three camps visited were of a different nature.

The first camp, Sierra Woodlands, in Sierra City, was a primitive camp which gave the Girl Scouts an opportunity to learn to cope with nature. The girls hiked to lakes, climbed mountains, and slept on rocks.

The second camp, Two Sentinels, was located on Lake Kirkwood where boating, canoeing, and swimming was available. There was rain and storm and later, warm days. This camp was very scenic.

The last camp, Sandierra, was developed similar to picnic grounds. Here the girls played in a creek, fished, sang around campfires, played musical instruments.

On the first day of arrival at eacv camp, the Girl Scouts toured the camps, after setting up their own camp.

The Girl Scouts made fast friends with each other and had such a gay time during the two weeks that they were loath to part .However, there will be a reunion in December, at which time the High Sierra Caravan trip will be evaluated. Movies will be shown, and pictures exchanged.

UC Extension Offering Many Adult Courses

University of California Extension's fall evening classes for adults open in September in Berkeley, San Francisco, Marin County and cities on the Peninsula.

A free catalogue describing Extension courses in the fields of Liberal Arts, Business Administration, Engineering and Sciences may be obtained by writing University of California Extension, Berkeley 4, of from the San Francisco Extension Center at 55 Laguna street, San Francisco.

THEY ARE MR. AND MRS. NOW — Nancy Steele of San Francisco became the bride of Robert Tweedie of San Francisco in nuptials on August 12 at the First United Presbyterian Church, 35th and Sloat boulevard. Soon after this picture of the newlyweds was snapped they departed for a honeymoon in Carmel. They plan to make their home in San Francisco.

Photo by DuCharme.

Nancy Steele, Robert Tweedie In SF Wedding

Nancy Steele became the bride of Robert Tweedie of San Francisco in solemn ceremonies recently at the First United Presbyterian Church at 35th street and Sloat boulevard, with the Rev. Arnold Nelson officiating.

A reception at the church followed, before the couple departed for a honeymoon in Carmel.

Nancy is the daughter of Mrs. Edna Steele, 2106 - 41st avenue, San Francisco, and attended Lincoln High School and is a graduate of St. Luke's School of Nursing.

The bridegroom is the son of Mr. and Mrs. William Tweedie, Sr., 371 Bixbee avenue, San Francisco. He is also a graduate of Lincoln High.

The bride wore a Princess gown of silk taffeta with Queen Anne neckline, applique bodice and chapel train, a crown of net petals and orange blossoms. She carried an orchid in a nest of stephanotis on a bible with ribbon streamers.

Bridesmaids were Janet Jerald and Judy Smith. Maid of honor was the bride's sister, Marilyn. Connie Burrows was flower girl.

Best man was the groom's brother, Richard. Ring bearer was Steven Burrows, and ushers were John Hankins and Frank Bodegraven.

New Concept In Church Meetings For Baptists

A new concept in special church meetings will be presented August 27 to September 3 at the Westlake Community Baptist Church, Southgate and Elmwood, in Daly City.

Dr. Donald W. Cole, just returned from the University of London, will speak two Sundays and nightly during the week except on Saturday on the general subject of "Christianity and the Anxious Mind."

Dr. Cole is both an ordained minister and a trained psychologist. His graduate work at London University the past two years has been in clinical psychology but for nine years prior to that he was president of the California Baptist Theological Seminary in Covina. Drawing upon such broad experience and training, Dr. Cole endeavors to bring the best of spiritual and psychological help to bear upon the problems which frustrate and sometimes defeat most people.

Appointments may be made for individual counseling with Dr. Cole during the week he is to be at the Westlake church. Information concering such appointments must be obtained through the church office.

The general public is invited to attend these meetings.

Garden Villagers Pack Open House

Recreation leaders at the Garden Village - Benjamin Franklin Playground sites were hosts last Friday night to a record number of parents and children visiting the playgrounds for the annual summer recreation program "Open House."

The evening's activities opened with a Parent-Son softball game which produced many surprises for both sides. The Parents won the abbreviated contest, 5 to 1. After the game, the guests retired to the game room for refreshments and to inspect the work done by the children during the summer program.

A card game, with awards donated by the recreation leaders, culminated the evening's activities. Winners were Janice and Mrs. Hale, Roland Wright, Kevin Pringle, Sammy Garcia and Kathy Brown. Gary Singer won the grand prize in the special four-corner game.

DC Families Are Forest Lake Guests

Among recent guests at Forest Lake resort in the Cobb valley of southern Lake county were:

Mr. and Mrs. Harry Abel, 280 Lake Merced boulevard; Mr. and Mrs. Don Begovich and family, 251 Southgate avenue.

High Holiday Services For Pacifica Set

Pacifica's first High Holiday services will be led by Allen Resch, of Westlake.

Resch studied at Hebrew Union College in Los Angeles and Hebrew Union in New York. He has had seven years of cantorial and religious teaching experience.

Last year he officiated at High Holiday services at Temple Israel in Stockton. He is employed as a teller at Golden Gate National Bank in San Francisco.

The services will be held at the Linda Mar Baptist Church on Crespi Drive in Pacifica. Rosh Hashanah will begin September 10 at 8:30 p.m. and continue September 11 at 10 a.m. and 2 p.m. (children).

Yom Kippur services will take place September 19 at 8:30 p.m. and on September 20 at 9:30 a.m., 2 p.m. (children), and 3 p.m. (Yizkor).

For all services the donation is $7.50 per family for members of the Jewish Community Center of Pacifica and $10. per family for guests. For reservations call Betty Cain, FL 5-2959.

University Women Now Have 100 Members In North Peninsula Area

Mrs. Kenneth McCloskey of Westlake recently introduced her sister, Mrs. Allan Sebanc of Burlingame, to members of the San Bruno Branch American Association of University Women as the group's 100th member.

The branch offers women college graduates in the North Peninsula area a broad program of social and intellectual activity. The growth the branch has experienced during its first four years has enabled it to continually expand its program, according to Mrs. Frank Jones, president. This year new sections in contemporary affairs and wass media will be added.

Interested women may contact Mrs. McCloskey, Daly City membership chairman, 22 Menle avenue, or Mrs. William Papsco, general membership chairman, 2335 Valleywood drive, San Bruno, for further information.

WHEN WHEELS CREAK

Do the wheels creak when your car turns a corner? It may be a loose bolt, points out the National Automobile Club. Loose bolts, permitting the wheel to wobble, cause one of the most rapid forms of tire wear.

Rabbi Continues Talks On Ancient Jewish Literature

Rabbi Robert W. Shapiro is continuing his series of discussions directed toward excavating areas of ancient Hebrew literature and applying them to our modern contemporary society. Services are held each Friday evening 8:30 p.m. at Temple Judea, 95 South Mayfair avenue, Daly City. All are welcome.

Full Educational Program

Temple Judea's Religious School begins with a class for pre-kindergarteners. Those entering religious school at the nursery or pre-kindergarten level must be 3 years, 9 months. The program continues through the 10th grade, at which time confirmation takes place. The post canfirmation class for 11th and 12th graders meets personally with the Rabbi. Graduation from high school terminates the 12th grade class. Temple Juda Religious School meets at the Westlake Elementary Public School in Daly City. A professional staff of teachers and supervisors are on hand to guide on an individual basis.

Intensive Hebrew Program

Temple Judea offers the two day a week Hebrew program for both boys and girls. A special Bar Mitzvah program with personal and individual instruction by the Cantor is available. All religious education plus services of the Temple are available through membership.

High Holyday Services

Temple Judea announces Services to be conducted for the High Holydays at the First Unitarian Church, Geary and Franklin streets, San Francisco.

Although membership includes both religious education, High Holyday Services, and all Temple services, the board of trustees have made special arrangements for non members to attend High Holyday Services. Inquiries may be directed by either writing to or phoning the Temple Judea Office, 95 South Mayfair avenue, PL 5-6362.

B'nai Israel Prepares For School Opening

Paul Lichtman, chairman of the religious committee of Congregation B'nai Israel, announces that once again the congregation will offer a full program of Jewish religious education beginning at the kindergarten level and concluding with graduation from high school. The Hebrew classes will again meet twice each week on Tuesday and Thursday from 4 to 5:30.

Rabbi Solomon Shore will again offer individual instruction to those children of the age 12 to 13 who are preparing for Bar Mitzvah and Bas Mitzvah. This individual instruction will also be given on Tuesdays and Thursdays from 5:30 to 6 at the Sanctuary, 67 Los Banos.

Membership in Congregation B'nai Israel is now available. Inquiries may be directed to Temple Office, PL 5-8126. Membership includes Sunday School, Hebrew School, adult education, affiliation with either the Men's Club or the Sisterhood, free Bar Mitzvah training under the personal supervision of the Rabbi and Cantor, and High Holy Day seating.

The special summer services now being conducted at B'nai Israel will continue till the High Holy Days. Rabbi Shore who has returned from his vacation will officiate and Cantor Morgenstern will assist singing the liturgy. The services as usual will start at 8:30 p.m. and no sermon will be given.

Colorful Autumn Hues To Grace Fall 'n' Fashion Style At Hillsborough

All the new colors of the Autumn season will be reflected in the new fall fashions to be shown by Macy's of San Francisco at the 'Fall 'n' Fashion' Style Show and Garden Party to be given by the Catholic Social Service Auxiliary on Friday, Sept. 8. The locale will be the gardens of the picturesque home of Dr. and Mrs. Gordon F. Madding of 700 Chiltern Road, Hillsborough.

Gay La Joie of Macy's will be the commentator and style-coordinator. Mrs. John F. Barrett is the fashion show chairman and Mrs. Jack E. White her co-chairman, with Mrs. Richard McLaughlin, Jr., assisting. There will be both professional mannequins and Auxiliary members modeling. Members chosen to model are Mesdames Peter Frederickson, Richard O'Connor, Melvin Savage and R. Thomas McLaughlin. Mrs. Judson Sherrill and Mrs. Dennis Hession will be the guest models.

Mrs. Lachlin McKinnon, general chairman of the event announces that the party will open with a champagne social hour at 1:15 p.m. Mrs. Hubert Stronck is the chairman. The proceeds of the party will benefit Catholic Social Service in San Mateo County.

Mrs. Peter Fagan, Auxiliary president, has called a meeting of the members for Wednesday, Aug. 30, to complete final arrangements for the party. The meeting place will be St. Catherine's Auditorium, Park road and Bayswater, Burlingame. Coffee will be served at 10 a.m.

Mrs. Edward Molkenbuhr, Jr., of Daly City, announces that a beautiful Norwegian blue fox shrug will be given away at the show. There will be other valuable gifts. Mrs. James H. Flanagan will head the hostess committee. Assisting will be Mrs. John Caselli of South San Francisco, Mrs. James Jackman of Colma and Mrs. Horace Ericksen of San Bruno.

There are tickets still available for the party and they may be had by calling FI 5-2251 or can be purchased at the door the day of the style show.

ST. MICHAEL'S MOTHER'S MEET ON SEPT. 11

St. Michael's Mothers' Club will hold the first meeting of the new school year on Monday, September 11, at 8 p.m., in the school auditorium.

Fathers and mothers are invited to come and meet their children's new teachers. Two additions to the staff this year are the new principal, Reverend Mother Mary Carmelita, and Sister Mary Fidelis.

While these teachers are new this year, they will renew acquaintance with many who knew them when they taught at St. Michael's School several years ago. Refreshments will be served under the direction of the English Grade mothers.

Voyagers To Conduct Presbyterian Service

The Voyagers Mariners of the Broadmoor Presbyterian Church will conduct the 10 a.m. Sunday worship service. Leading the worship service will be Jack and Janice Gobel, along with Barry and Florence Gould who are skippers. Other couples will usher and serve as greeters.

The Voyagers are affiliated with the National Presbyterian Mariners whose purpose is to encourage married couples on a "safe journey on the sea of matrimony with Christ as the Pilot and the Bible as the compass."

Meetings are on the first saturday evenings of etch month, except for holiday weekends when the meetings are held on the second Saturdays. Reverend Herbert Tweedie, local pastor and wife, are the Marainer navigators.

Slate Services At Redeemer's Lutheran Church

Sunday August 27 8:30 and 11 a.m. — Two morning worship services. Sermon: "Power Of Good Deeds."

9:30 a.m. Sunday School — 3 years through Adult Bible Class.

5:00 p.m. — Rally and Recognition Dinner for the entire Sunday School staff and its workers. Promotion to new grades and introduction of new teachers will be made on Rally Day Sunday, September 10, for the new Sunday School term of 1961-'62. Kenneth Moe, superintendent of the Sunday School, will serve as chairman. The anticipated enrollment for the new term will be over 300 students.

FIRST MAPS

The first road maps for use by the motorist were issued around 1910, according to the National Automobile Club.

Former Jefferson High Teacher Is Back From Thai

Progress toward eradication of malaria in Thailand was reported this week by Edgar A. Smith, chief advisor on malaria of the U. S. International Cooperation Administration mission at Bangkok, Thailand.

Smith, who taught biology at Jefferson High school in Daly City from 1940 to 1942, is now on home leave at Merced where he moved his family after leaving the Daly City teaching staff to become district entomologist and manager of Merced County Mosquito Abatement District. He later served in the same capacity with the Santa Clara County Health Department.

In 1956 Smith joined the ICA and was assigned as malaria advisor in Indonesia where he served for four and one-half years before his assignment in Thailand.

Malaria strikes heavily at three-quarters of the population of Thailand living in the rural areas, according to Smith. For centuries these areas were virtually inaccessible. However the U. S. road building program has opened up the back country and now the ICA working with Thai Health Department officials and World Health Organization representatives is reaching those areas with new medical advancements developed to help prevent and eliminate malaria.

INVITATION FOR BIDS WESTMOOR HIGH SCHOOL SECOND INCREMENT

Notice is hereby given that the Jefferson Union High School District, Daly City, San Mateo County, California, will receive bids for furnishing all labor, material, transportation, plant and services for the additions and alterations to the Westmoor High School, located on Westmoor Avenue, Daly City, San Mateo County, California, and all appurtenant facilities on the school site; each bid to be in accordance with the plans and specifications and other documents now on file with the Board of Trustees of the Jefferson Union High School District, Daly City, San Mateo County, California, and the offices of the Architect, Mario J. Ciampi, Architect, FAIA — Paul W. Reiter, Associate Architect, 425 Bush Street, San Francisco 8, California, where they may be examined and copies obtained by general contractors licensed by the California State Contractor's License Bureau, upon deposit of a certified check in the amount of ($50.00) fifty dollars for each set of documents.

Bidders are hereby notified that the wage scale prevailing in this area has been adopted by the School District and set forth in the contract documents as the rate which shall be applied to this contract.

Each bid shall be made out on a form included in the specification and shall be accompanied by a certified or cashier's check or a bid bond for at least ten (10) percent of the amount of the bid made payable to the order of the Jefferson Union High School District, Daly City, California; shall be sealed and filed with the Board of Trustees, Jefferson Union High School District, 375 South Mayfair Avenue, Daly City, San Mateo County, California, on or before Friday, September 22, 1961, at 2:00 P.M., where it will be opened and publicly read aloud.

The above mentioned check or bond shall be given as a guarantee that the bidder will enter into the contract if awarded to him and will be declared forfeited if the successful bidder refuses to enter into said contract.

The Board of Trustees of the Jefferson Union High School District reserves the right to reject any or all bids and to waive any informality in the bid.

No bidder may withdraw his bid for a period of 30 days after the date set for the opening thereof.

NOTICE OF TIME AND PLACE OF HEARING OF APPLICATION TO CHANGE ZONING

WHEREAS, an application has been filed with the City of Daly City to amend Ordinance 294 of Daly City so as to change the zoning of the following described property from a R-1 District to a C-1 District, as such district is defined and established by Ordinance 294 of the City of Daly City, or as the same has been amended; and

WHEREAS, Sections 65,500 through 65,805 of the Government Code of the State of California establish requirements for such amendment and for public hearings thereon, and

WHEREAS, in accordance with the foregoing, the Planning Commission of the City of Daly City desires to set a time and place for a public hearing so that all interested persons may be heard.

NOW, THEREFORE,

NOTICE IS HEREBY GIVEN that the Planning Commission of the City of Daly City has set the time and place for hearing all persons interested in or objecting to said zoning for Tuesday, the 12th day of September, 1961, at the hour of 8 o'clock p.m. of said day in the Council Chambers of the City Hall, City of Daly City, San Mateo County, California, at which time the said Planning Commission will hear any person interested in or objecting to said application and will receive any evidence appertaining to said application.

Said property is described as follows: That certain property situated in the City of Daly City, County of San Mateo, and more particularly described as:

Lot 32, Block 2, School House Extension Land Association.

(To be published on August 17 and August 24, 1961.)

FROM AUCKLAND to Burlingame, specifically to 1101 Juanita avenue, headquarters for the Girl Scout Council of San Mateo County, United Crusade member, came Valerie Hume, (shown above). Miss Hume, who returns to New Zealand this fall to teach geography, served as unit leader at Camp Two Sentinels.

New Zealander Gets Taste Of Girl Scout Work

Valerie Hume, who teaches geography in Auckland, New Zealand, had her first taste of working with American Girl Scouts this summer as a unit leader at Two Sentinels, an established camp operated by the Girl Scout Council of San Mateo County, member agency of the United Crusade.

Miss Hume, coming from Alberta, Canada, where she completed one year as an exchange teacher, and enroute to the Girl Scout Edith Macy Training School at Pleasantville, New York, was able to participate in the first session at Two Sentinels. Three sessions for girls of this area are offered at the Girl Scout camp site situated on Lake Kirkwood.

An avid camper and strongly affiliated with the Girl Guide Program in New Zealand, Miss Hume had this to say of the camp at Two Sentinels, "I found the site absolutely perfect, the program good and the Director and Staff outstanding." By way of comparison, Miss Hume explained there are no established camps in New Zealand, where camping is more primitive.

Of the Girl Scout campers she said, "Very interesting and more sophisticated than Girl Guides of camparable age in my country." She felt that Girl Guides were more enthusiastic than Girl Scouts about their approach to nature. She said that in New Zealand, Girl Guides work hard to earn the opportunity to go camping. To participate in an organized group caming experience is considered a privilege and is anticipated eagerly.

Miss Hume became acquainted with Girl Scouts from other parts of the world when she attended Girl Scout "Our Cabana" in Guernavaca, Mexico. In August of 1959 at the World Gathering of the Young in New Zealand, organized by World Association of Girl Guides and Girl Scouts, Miss Hume met Bertha Sanchez, a delegate from San Mateo. It was Miss Sanchez who interested her in visiting the San Francisco Bay Area.

New Record Set For Enrollment At USF Session

Student enrollment at the 1961 summer session at the University of San Francisco set a new record, according to figures released today by Rev. Timothy L. McDonnell, S.J., summer session director.

A total of 2,698 students registered for the USF summer session this year, the highest summer enrollment in the University's history.

The previous high for a summer session was 2,337 students registered in the summer of 1959.

The 1961 summer session enrollment included 1,571 students registered for day classes and 1,127 registered for courses in the evening division. The summer session ended last week.

About 4,200 students are expected to enroll when regular classes resume at USF in September.

Scavengers Help House Cleaners In Garden Village

Last Friday, Garden Villagers had a chance to clean closets, basements and attics, and rid themselves of a lot of unused items that accumulate around the home. The reason for this mass house cleaning was that the children from the Garden Village-Benjamin Franklin Recreation Program were roaming through the community trying to gather items to win the Surprise Day Scavenger Hunt.

Among the many articles gathered by the enthusiastic group were old bird cages, potato sacks, watermelon seeds, leaky buckets, Mickey Mouse hats, old shoes, milk bottle caps and several hundred items yet to be identified. Recreation leaders are still at a loss trying to decide how to dispose of this monumental pile of junk.

Contest winners were:

First Prize Team: Barbara James, Lynn Nolli, Pat Alba, Patrick Foley; Second Prize Team: Billy Eagleton, Joey Fernekes, Arthur Wilcox, Joy McCarthy; Third Prize Teams (tie): Marsha Fowler, Robin Cramer, Steven Fowler, Mike McBride, and Pete Aiba, Kevin Pringle, Terry Aiba, Roland Wright; Fourth Prize Team: Shirley Bolander, Justin Renfeld, Donna Cook, Joan Foley.

Gardener's Checklist

By the California Association of Nurserymen

1. Gladiolus plantings should be let to dry off gradually after bloom, so continue watering them occasionally.

2. Protect bedding plants from the hot August sun for a few days after setting them out.

3. August feeding is the surest way to have Roses through fall.

4. Plant Citrus, Avocado, all evergreen fruits now while the weather is warm. Shade young Citrus trunks from the sun.

5. Bait for snails. Frequent baiting is needed for complete control.

For the 13th consecutive year, California chickens produced a record output of eggs in 1960—5.7 billion.

New Students To Register At Laguna Salada

All eight schools of the Laguna Salada School District will hold an early registration day for students new to the district on Tuesday, August 29, from 8 a.m. to noon and 1 p.m. to 4 p.m.

Parents are reminded to bring proof of birth, preferably in the form of a birth certificate, for all new kindergarten and first grade students.

Children are eligible for kindergarten for the 1961-62 school year if they are 4 years and 9 months of age on or before September 1, 1961.

Students in other grades should bring a transfer form or a report card from the last school attended. Parents should register their students at the school nearest their place of residence.

School officials anticipate a new high in enrollment of approximately 5,900 students in the eight schools of the district when school opens on September 11.

BANK'S FAIR BRANCH OPENS NEXT WEDNESDAY

Bank of America's California State Fair branch, a hardy perennial which has blossomed about this time for the past eight years, will again open with the fair in Sacramento next Wednesday as a convenience to visitors and exhibitors.

Oldtimers who have grown accustomed to cashing checks and making deposits right on the fairgrounds will find that a bright new sign identifies the bank at its old location beneath the grandstand. The interior, too, has been touched up.

John Lemly of the Sacramento main office, who has been in charge every year since the service was originated, will again head the staff of seven.

The branch will be open mornings from 10 to 12, afternoons from 2 to 4, and evenings from 7 to 9 o'clock every day of the fair, including Saturdays and Sundays, through September 10.

Psychological Test Gauges Conformity And Independence

Do you go along with the group on most matters, or are you the kind of person who makes up his own mind about things?

The degree to which a person tends to conform or remain independent can be reliably measured, according to Dr. Richard S. Crutchfield, associate director of the Institute of Personality Assessment and Research on the Berkeley campus of the University of California.

Dr. Crutchfield is the originator of the conformity behavior technique, a test which measures the degree to which people either yield to the opinion of the group or stick to their own convictions.

"When you test hundreds of people in this way," says Dr. Crutchfield, "you find a huge range of individual differences. Some people will always stick to their own judgements, regardless. Then, way at the other extreme, you find people who almost always defer to the group opinion on any given problem. Most people, of course, fall somewhere in between."

New, Simple Test Reveals Damage To Human Heart

A relatively simple and accurate new test for heart damage, involving only a small sample of the individual's urine, has been reported from the UCLA Medical School.

Two brothers, Drs. Robert B. and Richard W. Kalmansohn, developed the procedure which they call the urine glutamic oxalacetic transaminase (UGOT) test. The test may also measure the rate of repair of heart damage.

Glutamic oxalacetic transaminase (GOT) is an enzyme which apparently plays an important but not too well understood part in amino acid metabolism. It is particularly abundant in heart muscle.

During the acute heart muscle damage (myocardial infarction) that follows a heart attack, the enzyme leaks out of damaged heart cells and appears in high concentration in the blood. Its activity is generally proportional to the amount of heart damage.

Several years ago the serum transaminase test, which measures GOT in blood serum, was developed. Since that time it has been used widely in the diagnosis of myocardial infarction.

In recent years a number of researchers had attempted to develop a simpler transaminase procedure with urine. However, the fact that the activity of this enzyme rapidly disappeared on standing at room temperature presented a problem.

The Drs. Kalmansohn recently found that if the urine sample were refrigerated immediately after it was taken, the GOT persisted for at least two days. Thus the sample would be suitable for GOT determination.

Design For Peace Sought

International cooperation through the United Nations is needed to create a "grand design for peace," Ambassador Adlai E. Stevenson told the opening session of the eleventh general assembly of the International Astronomical Union meeting on the Berkeley campus of the University of California, recently.

NEW SERVICE

A new service for motorists stranded on Mexico's highways is being provided by the Mexico Tourist Department's cruising vehicles, each manned by two English-speaking mechanics. The California State Automobile Association reports that the fleet consists of 25 vehicles which are on duty from 6 a.m. to 9:30 p.m.

Pacifica Girl Wins Title At Candlestick

Ill winds may howl and blow two baggers into triples and triples into homers at Candlestick Park but it was no ill wind that blew upon Cindy Luce, lovely brunette graduate of Westmoor High School, and resident of Pacifica, over the past weekend.

It was a nice, gentle wind of good fortune that blew inspiringly upon Cindy when she was chosen Miss Candlestick Park and wafted into fame and front page acclaim in the San Francisco bay area.

Cindy, just in case you never used the box seats along the first base line at such a time as the past three days when the Giants smothered the Dodgers three in a row, is a smiling, bright-eyed usherette and she does an excellent job directing traffic to those box seats.

Yes, the in-between 17 and 18-year-old lovely from Pacifica was voted the title Sunday at pre-game ceremonies at the ball park. She was selected from among ten finalists in the Candlestick usherette glamor contest.

Just in case you're interested, and what baseball fan isn't, Miss Candlestick for 1961 measures up a bit differently than the usual box score that goes up on the scoreboard at the park. She delivers vital statistics of 36-24-36 for the camera or tape measure. She's 5' 5" tall and tips the scales at 115 pounds. She resides at 296 Manzana way, Pacifica and is now attending IBM school in San Francisco.

Blonde Linda Moore was judged runner up and Erma Moore took third honors in the voting of the judges, Charles McCabe, Count Marco and Herb Caen.

Like title winners since the dawn of beauty contests Cinday registered great surprise mingled with fluttering excitement. She had expected Lola Hibbens, another contestant to win, she said.

However, Cindy accepted the title, the crown and Candlestick award from Art Rosenbaum, Chronicle sports editor, with becoming smiles, warm sparkling eyes reflecting her happiness and her brunette locks tossed by the Candlestick breezes added to the pretty picture.

Cindy comes by her knack of usherette supreme through inheritance, it would seem. In her fourth year with the Giants she took over when her mother, Kay, retired after ten years at Seals Stadium to become box office cashier.

In addition to the silves candlestick, denoting her rank, Cindy also won a beautiful tiara and a part in a movie, "Experiment in Terror," some of which is to be filmed on location in San Francisco by Columbia Pictures.

Cindy received moral support in her moment of excitement from her mother, her brother Billy, 10; sister Shirley, 10 and grandparents Mr. and Mrs. Palmer. Her dad, Ed Luce, just wasn't in the picture because he was busy at his job of baking. However, Mrs. Luce said, "You can bet he's got his transistor radio turned way up to catch this."

MRS. JOSEPH P. Schultz of 548 Atlanta Street, Daly City, and Mrs. Joseph Kusber examine the Fuchsias the Kusbers grow in profusion in their garden at 60 Werner Avenue. The Kusbers are participating in the Daly City Garden Club's home garden contest which will be judged during the Golden Anniversary Celebration, October 7-14. The contest is open to residents of Daly City, Broadmoor and Colma.

SM County Solon Has Books On Atom Shelters

Congressman J. Arthur Younger announced this week that a supply of booklets on how to construct a family fallout shelter is now on hand at his home office, 23 2nd Avenue, San Mateo and are available free to all citizens of San Mateo County.

Younger, who provided the books in cooperation with the San Mateo County Council of Mayors, also announced that he will provide each city hall in the county with a supply of the booklets so that residents in all parts of the county may secure them readily.

Citizens may also phone or write Younger's office, DI 4-8127, and a booklet will be mailed, it was announced by George A. McQueen, field secretary in charge of the local office.

Prepared by the office of Civil and Defense Mobilization, the 32 page booklet gives actual construction plans, ventilation plans and pointers for living in a shelter. It lists food and cooking equipment, supplies and equipment for sanitation, shelter equipment and suggested medical publications.

Sea Vue Theater In Pacific Manor Brings $150,000

Purchase of the Sea Vue theater building in the Pacifica Shopping Center, located in the Pacific Manor area of Pacifica, by George R. Ferretti of Colma was announced recently by Davis Realty Company of San Francisco. Ferretti, reportedly paid an amount in excess of $150,000 for the building.

The building, which houses several shops and offices in addition to the theater, was constructed ten years ago as the first development in the shopping center.

Ferretti, who operates the Ferretti Brothers garage on Mission street in Daly City and the American Art Metal Works of San Francisco, said he did not have any immediate plans for changes in the structure. These will have to await final word from the state on the Pacifica Freeway, the new owner pointed out.

The former owner, Dr. Raymond Curtner of San Francisco, bought the building from Axel Johnson and Associates, developers of the shopping center in 1959. In addition to the theater the structure houses Art Colvin Realty, Sea Vue Delicatessen, Robin's Studio and a cleaning establishment.

LIGHT UP SAFELY

If you want to light a cigarette while driving, National Automobile Club advises you to pull off the road and light up safely.

UC GREEK THEATER PROGRAMS THREE EVENTS FOR FALL

The Hearst Greek Theater on the University of California Berkeley campus will be alive with activity this fall, as the locale for three major dramatic events—two of which are particularly appropriate to the nature and tradition of the famous outdoor amphitheater.

The Greek Tragedy Theater, with its distinguished director Dimitrios Rondiris, will give three plays in the theater the evenings of Sept. 13 and 14. Performing in the language of modern Greece, the company will present "The Choephorae" and "Eumenides" by Aechylus, and "Electra" by Sophocles.

Following this, the University Theater will stage one of its most elaborate productions to date, Aristophanes' comedy "The Birds," the evenings of Sept. 28, 29 and 30. The production will have a contemporary slant, with a new translation by William Arrowsmith, and score by George Perle of the Music Dept. at U. C. in Davis.

The San Francisco Opera Company continues its tradition of five years with the performance of "Fidelio" in the Hearst Greek Theater, Sunday afternoon, Oct. 8. The cast will star the Dutch soprano Gre Brouwenstijn who is making her San Francisco Opera debut this year, and Marilyn Horne, Fritz Uhl, Paul Schoeffler and Gottlob Frick.

Infant Girl Found Dead In Bassinet

A three-month old baby girl was found dead in her crib Sunday morning by her father, who went to check on the infant.

Dead is Loretta Jean White, daughter of Mr. and Mrs. Raymound E. White, 745 Clarinada ave.

The coroner's office said that death was apparently due to pneumonitis (a lung congestion common in infants).

Bob Nolli Stationed On USS Saint Paul

Serving in the Far East aboard the heavy crusier USS Saint Paul, operating out of Yokosuka, Japan, is Robert P. Nolli, USN, son of Mr. and Mrs. Palmiro J. Nolli of 812 Heather road in Colma.

Youngsters Have Big Playland Day

A large group of Garden Villagers spent a day at Playland-at-the-Beach under the supervision of the recreation personnel of the Garden Village Recreation Program last week.

The day began with a skating party at Skateland, followed by a tour of the rides and games at Playland. Playground directors arranged for reduced rate tickets which allowed the children to go on many more rides than they would have at regular prices.

Among those attending were: Lynn Nolli, Joe Ethiemann, Vince Haymaker, Theresa and George Garcia, Mary Chisholm, Barbara James. Ron Shapansky, John Cestone, Michael Cestone, Steve and Janice Mackintosh, Robert and John Broner, Jacky and Janet Lutz, Kathleen and Janice Brown, Laura Roache, Diane Miranda, Tim and Judy Martin and Mary Alexander.

The Golden Gate Bridge at San Francisco is a link in U.S. Highway 101.

RECIPIENT of the Boy Scouter Lutheran Leaders' Training Course scholarship from Lutheran Brotherhood, fraternal life insurance society, is Herbert H. Stettler, pictured at Philmont Scout Ranch, Cimarron, New Mexico, with his wife, Hilda, and children.

DRIVING TIPS FOR EASIER COMMUTING

Many commuters who drive to work each day place unnecessary demands upon themselves by the way they drive, says the California State Automobile Association. The motorists' organization offers the following suggestions for easier and less tiring commute trips:

1. Don't follow the car ahead too closely. Hugging the bumper of another car requires nerve-racking concentration, even at relatively slow speeds of 30 to 35 miles per hour. A safe margin is to allow one car length for each 10 miles per hour of speed. For example, at 40 miles per hour, allow four car lengths.

2. If the driver behind is crowding your bumper, slow down gradually and increase your distance from the car ahead. This gives you a greater margin for stopping in the event of a slow-up ahead.

3. Avoid changing lanes constantly. Hopping back and forth from one lane to another increases the chances of an accident and rarely gains any time in travel. Earlier studies made by the CSAA show that "lane-hoppers" gain only one to two minutes over other drivers on an average commute trip.

4. Don't "gawk" at accidents. Drivers who slow down to peer inquisitively at an accident often create more of a traffic bottleneck than the accident itself.

5. Co-operate with other motorists when tie-ups occur. A stalled car or an accident means that two or more traffic lanes must merge into one lane. Be mature enough to help drivers in the stalled lane merge in front of you.

6. If you commute on a regular schedule and drive alone, try to get at least one other motorist who does the same to alternate driving with you. Even if it is impossible to do this every day, "doubling up" two or three times a week eases the load of driving every day.

Anthony Guillory In Puerto Rico Training

The island of Vieques, Puerto Rico will be the scene of approximately six weeks of training exercises for Marine Cpl. Anthony C. Guillory, son of Mr. and Mrs. John J. Guillory of 251 Peoria street, Daly City, while serving with the First Battalion, Sixth Marines which embarked, August 1, from the Second Marine Division's base, Camp Lejeune, N. C.

The battalion will receive training in the latest tactics with the use of helicopters to help maintain the division's force-in-readiness role.

Cacti Is A Succulent Plant; Stores Water

Plants which adapt themselves to an intermittent moisture supply by storing water in more than 20 plant families.

Of these, probably the best known is the great cactus family.

Those used in mild winter, Western gardens have added a new dimension in garden design. Unlike most other plants, they do not blend into frothy masses of greenery. Some resemble carved pieces of white granite or brightly colored coral. Others look like perfectly formed flower blossoms made of green wax or covered with spun glass.

Making use of their unique shapes and varied colors is a little like arranging a collection of shells or colored rocks.

Cacti alone contain some 2,000 different species ranging in size from the giant Sajuaro which weighs several tons and towers up to 50 feet in height to the Button cactus that is so small it is difficult to find.

Among the succulents are plants with stems like a series of organ pipes. One of these is a so-called geranium. Although really Pelargonium, it is recognizable as such only when it sends out characteristically shaped leaves.

There also is the big Euphorbia of Spurge family which includes the well-known Crown of Thorns, Euphorbis Splenden. In the Amaryllis family, there is the Agaves group to which the Century plant belongs.

Others are found in the pineapple, lily, ice plant, crassula, milkweed, sun flower and even the daisies contribute some species.

Succulents seem to get along in just about any type of soil so long as water drains well from it. It is impossible to generalize on water requirements but those succulents used in the garden as ground covers will take and enjoy regular garden watering if the surface soil is not continously wet.

Local Fallout Is Most Dangerous Of Three Types

Fears about radioactive fallout have centered mainly on the world-wide variety circling the earth, but it is really local fallout that should worry us most.

So says Dr. Willard F. Libby, a former member of the U. S. Atomic Energy Commission and 1960 Nobel Prize winner in Chemistry, who divides fallout from nuclear explosions into three main types—local, tropospheric and stratospheric.

The intense local fallout comes down quickly and in heavy doses, generally over an area 200 to 300 miles downwind from the bomb burst. As much as 80 per cent of the total fallout may come down within the first few hours after an explosion.

In past nuclear tests, local fallout has been carefully controlled, but in a nuclear war it could represent the greatest danger to the civilian population. The danger can be largely countered by a nation-wide shelter program, Dr. Libby believes.

Radioactive particles which are too fine to be caught in the local fallout start circulating around the earth, some coming down inside a month, while others circle the entire earth for about five years, losing most of their radioactivity, before coming down through gradual mixing with the lower air.

BEHIND every six Girl Scout campers is an interested adult. This is the ratio required by the Girl Scout Council of San Mateo County, an agency of the United Crusade. Shown above is Mrs. A. C. Liberato of Daly City, an avid worker in the Girl Scout movement for 13 years, who directed two sessions of day camping at Junipero Serra. She is also recording secretary for the Jefferson High PTA, and publicity chairman for the Vista Grande-Thornton PTA.

SPORTS

Latest Scores Are Listed For Summer Baseball Leagues

Following is the latest recorded scores in the 1961 Summer Baseball Leagues:

MARCHBANKS MIDGETS

Parkmerced continued to set a torrid pace as they once again had on their hitting hats. Brian Bond and Phil Rapoport led the hit parade, collecting five hits for nine at-bats. Phil, along with his bat work, pitched his second consecutive two-hitter in league play, winning 15 to 0 over the then undefeated Art Colvin nine.

WESTLAKE MIDGETS

The BYA Bullets, behind the strong hitting of Lowy and Poulas, jumped off to a first inning lead. However, the Bullets were later headed by Toto's seventh-inning rally. Ciardella, Becker and Contreras led the hit parade with two for two and were very instrumental in Toto's seventh-inning uprising. Carper was the winning pitcher. From the second through the sixth innings, Carper kept the Bullets' bats silent. Barry Perrone collected the only PAL Braves' hit to shatter an otherwise no-hit pitching effort of Joe Cardoza and Joe Farrell. Leading the 6 to 1 win for the Red Sox was the strong hitting of first baseman Larry Black.

A strong three-hit performance by the Cardinals' Mike Chelone enabled his team to shut out the PAL Yankees. The brilliant glove work of shortstop Joe Weinberg made Mike's job a little easier. Mike, in addition to his fine pitching, helped his own cause by driving in two important runs in the sixth inning. Final score: Misracks 3, Yankees 0.

COLMA MIDGETS

Dan Hackett of the PAL Giants put his team in the win column this week with a one-hitter over the Holy Angels Lions. The Lions were favored to win this one but Hackett's mound performance and the bats of Tiedje, Balforge, Starkey and Liekke edged them out, 3-2.

WESTERN JUNIORS

Fred Arnke of Misracks Juniors broke up a 2-1 ball game with the BYA Falcons. Arnke scored on a close play at the plate. His base running and Dennis Owen's one-hit pitching edged out the Falcons, 3-2. Homberg of the Falcons allowed Misracks only four hits. This game puts Misracks out in front with a 4 and 0 record.

EASTERN JUNIORS

No scores from the Eastern Division were received this week.

Jeff High Physicals For Sports, Sept. 7

Physicals for those Jefferson High boys planning to go out for football and other sports will be given Thursday, September 7 at 10 a.m. in the Nurse's Office.

This physical examination will be given to frosh, sophomore, junior and senior boys at that time.

There will be no charge for the physical examinations.

Summer Rec Program Ends On Thursday

The Daly City Recreation Department announces that with the completion of its summer recreation program on Thursday, all school recreation sites will be closed until Monday, September 11, when the Fall program will start.

The resumption of school on September 11 makes it necessary to close all school facilities in order that maintenance crews may prepare the spaces used by the Recreation Department for its summer program.

The following recreational facilities will remain open with competent supervisors on duty:

Marchbanks Park
Lincoln Park
Frankfort Park
Westlake Park
War Memorial Community Center.

The hours of supervision on the sites mentioned above will be from 10 a.m. until 4 p.m., Mondays through Fridays. The War Memorial Community Center will be open in the evenings from 7-9:30 p.m., Mondays through Fridays.

BRISBANE'S baseball team, shown above, recently were the winners of the North Peninsula Frosh-Soph League. Pictured are, bottom row, (l. to r.) P. Thomspon; R. With; A. Valdez; P. Schroeder; S. Young; B. Dettmer; and A. Therrian. Top row, (l. to r.) L. Tiapula; R. Olson; B. Fia; R. Bell; D. Hicks; T. Fia; D. Kasper; and H. Edwards, coach.

DC Youngsters Enjoy Outings At Serra Park

On Thursday, August 17, 140 children living on the east side of Junipero Serra Blvd. enjoyed an outing to Junipero Serra Park in San Bruno. The day began with a big weiner roast after which the children took a nature hike through the beautiful hills surrounding the park. The outing was climaxed by a treasure hunt where 28 lucky youngsters were awarded prizes for finding the hidden treasures.

The winning prizes were awarded to Gene Hedrick, Joanne Loughlin, Bruce Steele, Edith Steele, Margaret Lybrand and Mike Volkman. Consolation prizes were awarded to Fred Garcia, John Volkman, James Martin, Betty Lybrand, Patrick Marshall, Robin Finley, Noelle Clark, Eddie Steele, Bruce Boati, Paul Lopez, Tom Del Sarto, Stan Figone, Henry Bell, Rosa Bell, Gay Sanders Dorothy Mechling, Bonnie Walton.

On Thursday, August 24, a similar outing will be held for the children attending the playgrounds on the west side of Junipero Serra Blvd. For further information on this event, contact the Recreation Leader at your nearest playground or call the Daly City Recreation Dept., PL 5-0850, Ext. 18.

CREDIT

About two out of every three new cars are bought on credit, according to the National Automobile Club.

Baroni Defeats DC Drugs 4-1 Other Team Scores Are Revealed

As reported last week, Baroni's defeated Daly City Drugs and at press time box scores were not available.

The game was a tight well played contest with Newman of Baroni's allowing 5 hits and Sherman of the Drugs giving up 8. Newman received excellent backing from his teammates. Sherman chucked a fine game until the roof fell in the 6th. He allowed 4 hits and one error. Baroni's scored 4 runs at that point. Final score: Baroni's 4, Daly City Drugs, 1.

That game gave Baroni's 1st place in league play. On August 16, the play-off began with Baroni's facing the South San Francisco Native Sons. Foster took the mound for Baroni's that night and came through with a one hit shutout. Crowhurst of the Native Sons spoiled his no hitter with a line drive in the last of the 7th with 2 outs. J. Kennedy and Waligara of Baroni's hit 2 for 3 to help the cause. Final score, Baroni's 5, Native Sons 0.

August 18 saw the 2nd and 4th teams play off. Daly City Drugs came fighting back. In their game with the Mitchell Plumbing Roadrunners, they overcame some fine individual performances to win 4-1. Trevino, Roadrunner's pitcher, allowed the Drugs only 2 hits and Carl Mitchell, Roadrunner's catcher, smashed out a triple and a homerun. Two other Roadrunner hits could only account for 1 run. The Drugs took advantage of several walks and combined them with hits by Watso and Buffy to score 4 runs. Final score, Daly City Drugs 4, Roadrunners 1.

This week the Drugs will try to even up the playoffs on Friday night at Colma diamond. They will face Baroni's with both teams at full strength. This should be a great game with the teams going all out. Should the Drugs win, they get one more chance at Baroni's. Baroni's must lose 2 games to get knocked out of the playoffs. The Drugs are eliminated if they lose one.

Football Physicals Set For W'moor Gym On September 1

Physicals for all Westmoor High football candidates will be given Friday, September 1, in the Boys' Gym, beginning at 10 a.m.

Those frosh, sophomore, junior, and senior boys interested in going out for football this year must take their physical at that time, according to Coach Peter Matisi.

The physicals will be free.

Regulars Tops In Garden Village Archery Contest

Robbie Fernekes, Andy and Steve Ehat and Donna Neugebauer, regular participants in the Garden Village-Benjamin Franklin Recreation Program, walked off with the scoring honors in the final tournament which culminated the weekly archery lessons at Garden Village playground. The winners seldom missed the weekly sessions.

ARCHERY TOURNAMENT

Class A. — Robert Fernekes, 110 points; Billy Eagleton, 80; Ray Workman, 42; Bob Broaner, 40; Theresa Garcia, 20; Richard Hammond, 6; Ronald Wallace, 2.

Class B. — Andy Ehat, 66 points; Mario Rizzo, 62; Greg Deal, 32; Pete Alba, 24; Jim Hess, 12; Larry Landess, 2; Ken Gonzales, 2.

Class C. — Steve Ehat, 78 points; Donna Neugebauer, 58; Albert Lieske, 26; Justin Rehfeld, 20; Collins Orton, 16; Kenny Walker, 10; Kevin Pringle, 6; Vince Haymaker, 4; Lee Shackleford, 4; David Kline, 2.

ARCHERY 'BULLSEYES'

Robbie Fernekes, 3; Steve Ehat, 2; Billy Eagleton, 2; Mario Rizzo, 2; Donna Neugebauer, 1; Andy Ehat, 1; Roy Workman, 1.

'BALLOON POPS'

Billy Eagleton, 1 pop; Andy Ehat, 1; Robbie Fernekes, 1; Donna Neugebauer, 1; Mario Rizzo, 1.

WATCH OUT FOR DEER

From now through November is the time for California motorists to be extra careful about deer on our highways, warns the National Automobile Club.

Hit a deer at high speed and you can have serious injury or death not only for the deer but also for you and your passengers. The least you can expect is a badly damaged car.

From June through November, the deer kill on the highway usually mounts rapidly. Last year California motorists killed a known 5,118 deer plus many more that were injured and wandered off in the wilderness to die. Most disastrous month was November, with 743 dead.

In addition to deer, bear elk, antelope, pheasants, and many other species become casualties on our roads.

Most animals seem to be hit at night when headlights blind them and confuse them.

Watch for the reflections from the animals' eyes, visible for several hundred feet, and slow down when you see such reflections.

Many Thefts Reported To Police Department

Several cases of thievery were reported to police during the past week by Daly City residents.

On Friday, John D. Summers, 5 Coronado st., Apt. 121, reported the theft of his car either late Thursday or early Friday from the carport. The car contained a shotgun, pistol and rifle in the trunk. Estimated loss was $555.

Laura Schapp, 20 Westbrook pl., reported the loss of a 21 jewel gold wrist watch over the weekend. Estimated value, $125.

Dwayne M. Larroshi, 140 First ave., Apt. 1, reported Saturday the theft of a tachometer from his car parked in the carport of his apartment. Estimated value, $40.

A number of other small thefts were handled by the police department, many occurring during the weekend, but estimated loss was small on these items.

Winners Of Final Jr. Olympics Listed; Event Draws 300 Kids

The Daly City Recreation Department recently held its second and final Junior Olympics of the summer at Marchbanks Park. This event held for all playgrounds on the east side of Junipero Serra Blvd., drew about 300 youngsters and produced some excellent runners.

Results of the meet are as follows:

CLASS A BOYS (13-14 years of age) . . . Winning Playground — George Washington School.

50 Yd. Dash—Steve Sutherland, George Washington School.

60 Yd. Dash—Rich Rezentes, Crocker School.

75 Yd. Dash — Fred Ferdie, George Washington School.

400 Yd. Shuttle Relay — War Memorial.

Softball Distance Throw — Dan Cafferata, Marchbanks Park.

Standing Broad Jump — E. Smith, Marchbanks Park.

Softball Accuracy Throw — Gene Headrick, George Washington School.

CLASS B BOYS (11-12 years of age) . . . Winning Playground —Frankfort Park.

50 Yd. Dash — Tom Belvin, Frankfort Park.

60 Yd. Dash — Tony Schrock, Frankfort Park.

75 Yd. Dash — Wilson Lonland, Marchbanks Park.

400 Yd. Shuttle Relay — Frankfort Park.

Softball Distance Throw — Todd Dechtal, War Memorial.

Softball Accuracy Throw — Felix Bria, Colma School.

Standing Broad Jump — Wishon, Marchbanks Park.

CLASS C BOYS (10 years and under) . . . Winning Playground — George Washington School.

50 Yd. Dash — Ray Schrock, Frankfort Park.

60 Yd. Dash — Larry Tober, Frankfort Park.

75 Yd. Dash — Ron Hacket, George Washington School.

400 Yd. Shuttle Relay — George Washington School.

Softball Distance Throw — Tom Elliot, George Washington School.

Standing Broad Jump — Bud Bent, George Washington School.

Softball Accuracy Throw — Brian O'Shea-Colma School.

CLASS A GIRLS (13-14 years of age) . . . Winning Playground — Colma School.

50 Yd. Dash—Linda Luciano, Colma School.

60 Yd. Dash — Janice Wyller, Colma School.

75 Yd. Dash — Jolynn Samson, Crocker School.

400 Yd. Dash—Colma School.

Softball Distance Throw — Jolynn Samson, Crocker School.

Softball Accuracy Throw — Kathy Villias, Crocker School.

Standing Broad Jump — Carpl Matgen, Vista Grande School.

CLASS B GIRLS (11-12 years of age) . . . Winning Playground — George Washington School.

50 Yd. Dash — Linda Oliver, Vista Grande School.

60 Yd. Dash — Odell Ellis, George Washington School.

75 Yd. Dash — Shawn McDonnell, Frankfort Park.

400 Yd. Shuttle Relay — George Washington School.

Softball Distance Throw — Linda Luciano, Colma School.

Softball Accuracy Throw — Judy Hastings, Marchbanks Park.

Standing Broad Jump—Odell Ellis, George Washington School.

VIOLATES TRAFFIC; LEADS TO 3 DEER IN MAN'S BATHTUB

An investigation that started with a downtown traffic violation and ended with the finding of three deer carcasses in the bathtub of a city apartment resulted in jail sentences recently for two Oakland men.

One of the men was turned over to Department of Fish and Game wardens after an Oakland police officer stopped him for a traffic violation and found a deer carcass in the trunk of his car, together with a rifle and a spotlight. Further investigation led to the other man in whose flat the other three carcasses were found.

One suspect, identified in court by the other as the man who shot the deer, was sentenced to six months in jail. The other man drew a three-month sentence.

The men said the deer had been taken near Lake Berryessa, Napa County.

Daly City Players To Begin Casting Children's Play

Following the outstanding reception of their first children's production (Rumplestiltskin) last spring, the Daly City Players are now casting for another children's play, to be presented this fall. Members of the group are looking forward to participating in "The Emperor's New Clothes," adapted by Ray Navarra from the fairy tale by Hans Christian Anderson.

All persons interested in working on this production in any capacity are cordially invited to attend tryouts which are being held Thursday, August 24, 7:30 p.m. in Room A at the War Memorial Community Center, Mission at Alp street, Daly City.

Since the Players design and construct their own sets and make their own costumes, there is ample opportunity for anyone not interested primarily in acting to employ their talents in these vital areas. Actors, amateur or otherwise are always welcome and needed.

For further information call Jan Jensen, PL 6-4776.

ANTIQUE CARS

On an appointed day each year in England, owners of antique cars take their cars on a 50-mile run from London to Brighton.

Last year, reports the National Automobile Club, a total of 223 cars, each one more than 50 years old, completed the run. The only car that didn't finish was the escort car. It was brand new.

It's SPARE TIME at Westlake Bowl

Next Saturday afternoon, August 26, at 1:30 at Westlake Bowl will find the winners of the Third Annual Daly City Police Athletic League Benefit Bowling Tournament receiving their prizes.

Averages have been verified and postcards have been mailed to the almost 500 prizewinners in this successful charity affair.

As in past years, over $5,000 has been realized for the youth program of the Daly City Area and once again the value of the prizes has exceeded the amount realized by PAL.

Pon Poncetta, General Manager of Henry Doelger, Inc., having mastered the golf challenge, has now solved the bowling problem. Last Wednesday night in the Westlake Knolls League he not only had a 232 game but also broke the six-hundred barrier with a 602 series.

Good report from the hospital department is that Marilyn Nottingham, secretary of the Southgate Mixed Fives League is now recovering at home. League members hope to see her back in action soon.

The current Aid Retarded Children Benefit Tournament is actually six tournaments in one since each week a new qualifying round starts on Monday morning. In this way, a high score shot one week is not a target for bowlers in following weeks. New prizes are being added daily as a hard working committee continues to turn up valuable awards. As with our PAL Tournament, a special prize is awarded for groups of 20 or more. Times may be arranged by calling PL 6-5777.

Hal Basden of Harold's Barber Shop team continues to make the news. Not only does he sponsor the team but he also shows them how to bowl. Last week he posted a 238 game and 563 series.

The Saturday night Junior-Senior Invitational Classic League is off to a fine start with six teams bowling Saturday evenings at 6 p.m. The "Cream of the Crop" of our Junior bowlers should provide plently of entertainment for spectators on Saturday evenings. Larry Tomassini is league president, Pete Pollat, vice-president and Steve Hargrove, secretary.

Jim Jolley is once again on the crest of his bowling career, shooting a 257 game and 648 series in the Southgate Mixed Five's last Tuesday.

Director Elaine Wolfe of the North San Mateo County YWCA is planning a full schedule at the Bowl starting next month. The varied program includes a bowling league and instruction class, fashion shows, Friends of Library meetings, bridge club, party planning class, mosaics, ceramics and wood carving classes and may other attractions. She may be reached at PL 6-7370 for information.

Open play bowlers are getting in plenty of practice these nights as the summer leagues draw to a close and league bowlers take a vacation before the start of the long winter season.

Primo Liberatore reports a few openings in the Friday 6:15 leagues, both in the Men's 750 Handicap and the Mixed Fours League.

Trophies were awarded last week to the winners of the First Annual Westlake Family Doubles Tournament. Following are the 16 winners in the various classes:

Father & Daughter — Ralph & Connie Ostergren — 1279 Father & Daughter — Angelo & Lee Baldelli — 1231. Mother & Son — Ruth & Pat Tobin — 1223. Mother & Son — Ruby & Dude Nilan — 1173. Mother & Daughter — Betty & Connie Ostergren — 1199. Mother & Daughter — Ora & Nancy Swanson — 1187. Brothers (Seniors) — Fred & Roland Thompson — 1291. Brothers (Seniors) — Ted & Pete Lambertson — 1283. Father & Son (Jr.) — Ed & Phil Hargrove — 1301. Father & Son (Jr.) — Walt & Gary Schumacher — 1300. Father & Son (Jr.) — Bud & Bob Cowan — 1281. Milli Belli and Marie Bacigalupi are the August Powder Puff Queens winning the Handicap and Scratch Divisions respectively.

PURPOSE-FULL

-and the clean-up savings are wonderful!

More payload for less money. Ask any Ford truck owner. And at clean-up time, it takes even fewer dollars to replace that worn-out pickup. Take advantage of these year-end savings on everything from light duty pickups to super-duties and tandems. We'll allow you far more than your present truck is worth. Remember, one of the best business profits can be a substantial saving on equipment.
